> Ry: Jackson is mad. Well boo hoo. Why attack the same side? I'm not.
> What's the point of stealing people's shit? I'm not attacking him about his position on Palestine or Russia. I'm calling him out for constantly swiping other people's stuff.
> There is no argument or excuse for not retweeting other than he doesn't want other people to be discovered who have the same message. This means he doesn't care about the message, he cares about Jackson, he wants to be the filter for it.
> If the message mattered then build up the reach of researchers who developed it. He has an undeserved spotlight because he is a midwit communist that is easy to deal with. All he does is steal things from telegram groups and other people on Twitter and pretends like he's a researcher. No books, no films, no decades in the game, just a professional re-uploader.
> That's find spread the word but why isolate where it came from? There is no reason other than being a grifter.

@danevans6340 - 5 years ago (edited): I read the comments first, then listened. As someone who is actually a fan of both, I felt like this was a good showing from Nagle and Benjamin. She covered well the elements which make me hesitant about the efficacy of liberalism, and he covered well the futility of fighting for a sensible left when it means you'll just get squeezed out by the [hate to use the term, but for the sake of descriptive convenience] SJWs.

ungrounded and debased capitalism is toxified and easily schizophrenicated, at which point institutionalization is child's play. Let's look one move further down and deeper into this fauled playing field.
what exactly is the relation between insti- and constitute?
when and at what rate [with which delay & buffer factors] do institutionalities become constitutionalities?
Some of us [too few] are well aware of how deeply and quickly toxicities sink into the crotches of creatures

across the board .. but how far, if any lag filters and/or thresholds are even up to forming lines of defense, are 'schizies' behind the speed of bloodstreams?
Are these comparable and/or parallel to the how, when, where & to what extent atmospheric edges get taken off [heat gets taken up & in] by bodies of water?
my first guess is the schiz sinks into and down to bonelevel a lot slower than yar bonerleverlz, i mean hot n cold extremes but is that true?

A Defiant Netanyahu Will Drag Out His War to Hurt Biden and Help Trump ----- We begin with Israeli Prime Minister Netanyahu's defiance in his public rejection of the US administration's case for a Palestinian state following Biden's call for a two-state solution and the ending of Israel's war in Gaza. We go to Israel to discuss how Iran through its proxies seems to be in the driver's seat in the Middle East and appears to be in a symbiotic relationship with Netanyahu who is all in with Trump and will drag his war out to hurt Biden who clearly does not want the US to be sucked into another war in the region. Joining us is Haggai Matar, an award-winning Israeli journalist and political activist. He is the executive director of +972 Magazine.

A Supreme Court Poised to Gut the Administrative State
We begin with today's argument before the Supreme Court in a case known as "Chevron deference" being heard after 40 years in which government agencies were given deference to experts' rulings on public health, the environment and consumer protection issues etc. But now an ideological right wing court appears to want to decide these critical matters themselves. Joining us to discuss today's hearing is Jody Freeman, the Archibald Cox Professor at Harvard Law School

Should Bitter, Angry Justices in the Thrall of Billionaires and Corporate Power Decide What We Eat, Breath, How Long We Live and What Kind of World We Live in?
Then we speak with James Goodwin, a Senior Policy Analyst with the Center for Progressive Reform. He previously worked as a legal intern for the Environmental Law Institute and EcoLogix Group, Inc and has published a number of articles on human rights and environmental law and policy appearing in the Michigan Journal of Public Affairs and the New England Law Review. We discuss this power grab under way by bitter, angry Supreme Court justices in the thrall of billionaires and corporate power about to rule on whether citizens will have any say in how long they live and what kind of world they live in.

Will Strikes Against the Houthis Scuttle the Saudi Peace Deal to End a War in Yemen MbS Started in 2015?
We begin with continued strikes by the US and UK against Houthi targets in Yemen and assess what impact they will have on the peace talks close to ending the civil war that was started by Saudi Crown Prince Mohammed bin Salman in 2015 as well as whether this escalation will spark a wider war in the Middle East. Joining us is Shireen Al-Adeimi, a professor of education at Michigan State University. Having lived through two civil wars in her country of birth, Yemen, she has played an active role in raising awareness about the U.S.-supported, Saudi-led war on Yemen since 2015. Through her work, she aims to encourage political action among fellow Americans to bring about an end to U.S. intervention in Yemen.

Then with Taiwan's pro-sovereignty DPP winning over the KMT in this weekend's election which mainland China's government of Xi Jinping has called a choice between war and peace, we speak with Michael Swaine, https://quincyinst.org/report/paths-to-crisis-and-conflict-over-taiwan/

We begin with a new report "White House For Sale" produced by Democrats on the House Oversight Committee that reveal Trump made $7.8 million from foreign governments while in the White House, $5.5 million from an adversary, China. Joining us is Dylan Hedtler-Gaudette, a senior government affairs manager at POGO, the Project on Government Oversight, where he advocates for good government policy solutions in a range of issue areas, including foreign influence, judicial ethics and transparency, greater accountability and openness at the Department of Justice, enhancing the capacity and integrity of Congress, and the protection of core constitutional principles, among others.

Is Israel's Disproportionate Use of Force in Gaza Intended? ---
Then finally we speak with an Israeli born and educated scholar who argues against Israel's philosophical apologists about the conduct of the war in Gaza. Joining us is Nir Eyal, the inaugural Henry Rutgers Professor of Bioethics at Rutgers University where he also founded and directs the Center for Population-Level Bioethics, within the Institute for Health, Health Care Policy, and Aging Research. He is also an associate faculty member of Rutgers Department of Philosophy in the School of Arts and Sciences and has an article in the philosophy blog, The Daily Nous, "Disproportionate and Intended Harm to Innocents in Israel's War in Gaza."

How did Israel gain so much power over the US?

(Level 1) Bribery :Creating mega donors
(Level 2) Blackmail
(Level 3) The Origin
(Level 4) The Media

The Bribe
They created the largest self-licking ice-cream cone. In short, US foreign aid to Israel which is in the Billions is split in two.
One part is earmarked for US defense industries making the MIC happy.
The other part goes to benefitting the commercial interest of a select cabal of extremely wealthy state leeches. This creates a donor class.
The donor class then lobbies directly or finances professional lobbies like AIPAC to lobby congress to do Israel's bidding.
There first demand is always send more money. If a congressmen gets out of line they will finance their opponent. 97% of AIPAC approved candidates win.
The US is subsidizing its own subversion by a foreign state.
Israeli bribes come from the American tax payers.
The entire gambit relies on foreign aid and an unregistered lobby. If the US would end aid to Israel, this entire cycle stops.

(Why did the aid start? To keep the Suez and Red Sea access away from USSR)
(Why did the aid start? To keep the Suez and Red Sea access away from the USSR)
That is why I made this years ago. I realized US foreign aid is at the root of everything that sustains their power.

(Level 2) Blackmail -- In much the same way, a network of wealthy Jews act as the financial backbone to conduct a massive blackmail operation.
This is exactly what the Jeffrey Epstein pedophile ring was.
Billionaires like Les Wexner, Leon Black, Glenn Dubin all Jewish Zionists all with ties the Israel state officials, bankrolled the operation that Maxwell and Epstein managed with Jean Luc Brunel and Claude Haddad.
----- Once someone is compromised or doesn't want to lose access to what you're offering, money bribes are no longer necessary. So let's expose them. They hate being named, demons operate in the Dark. I name every major capo in that operation.
Dylan Roof never even had a confederate flag. The Facebook image that went around was a photoshopped picture

> Putin had key points : 1 we already made you an offer Ukraine was ready to sign it and Borris Johnson of the UK working on behalf of the US screwed it up ---------- 2 Germany is on a path to culture suicide. There are two intact pipelines that they won't turn on. One by sea available right now and one through Ukraine which they could demand they open. ---------- 3 Trying to limit China or BRICS is idiotic ……… And using the dollar as a political weapon was a HUGE mistake. Even if the dollar has value based on the labor it's tied to (and it does) its politically flimsy. For example, why would I invest time into youtube or PayPal when I know that out of the blue they can cancel me over nothing. If you freeze dollar holdings over political positions then people are afraid to hold them in reserve because they've seen the US freeze them on Iran and Russia. You're basically forcing them to use a basket of currencies with the Yuan being one of those. You also hurt your own bond market.

migration incentives and recruitment prospects share ads bias: lies and worse, rolled into one. Out to trigger kneejerk moves and purchases.

my tolerance for making light of borders and/or attempts to shift force application to those that benefit radial/vertical traffic [who goes there? it's just my shadow replied the magsylphicent treetrunkie] took a long time to have the imbalance between ethnos and less innately moveable bioregional surplus adjust and right itself ... and yet ..

... i see, on this front as well as many others, that my hints [&insight divulgeroonies] feel, to me, too little too last .. and yet as time passes [decades, as a rule] are taken more and more seriously. Alas, quite apace with 'wrong way to go about them', not granting volition levers their dues.

Instead, we all suffer, everything suffers force misapplications, to the point of frantic, frenetic and frankly fascistic ones.

Sure,  when dropped / uttered, they felt and were meant to be timely enuff and would have been if instead of dank versions, i would be marked 'deserving narcissist'

i throw up my hands, bathe in despair flavored discouragement and write off another total loss .... and yet to my horror, decades later .. undead versions appear. ... after a run up time that makes them almost anachronistic people will attempt a meanwhile badly mangled, more dead than alive interpretation of it with an abandon that grows greater the longer the lag. Sources be damned, but can parade a few generic 'too far out ahead of his time' records in history shows. 5 clicks away proof is too far. Riddle me that ..

Here's one such thingie, i can't believe i have to spell it out and nobody [else] can be found to have even been there yet altho it feels like 20 eagles have lifted all those heavy between the lines loads and carried them into all possible quarters and angles with every bit of visionsharpness that lends their efforts the proverbial screamingly obvious making patina an venereerarrear.

> Eylon Levy is the leading Israeli government spokesperson. You will have seen him doing media hit after media hit, fiercely defending Israel throughout the Israel-Hamas War. But you will not have seen him like this. We sit down together at the historic Jaffa Hotel Chapel in Israel for a deeper dive, a closer examination of what he's been saying. It was an opportunity to better understand the mind of the Israeli government through the mouth of one man.
> How did the October 7th Massacre happen? How did a country with the most stringent security in the world be so overcome? Can Israel actually win this war? Is pulverising Gaza actually a sensible strategy?
> Can an idea - the Islamist-Nationalist ideology of Hamas - actually be defeated? It is an idea reinforced with every victory of Israel, much like a Chinese finger trap, the more you struggle against it, the tighter the grip. Does Israel care what the world thinks? - What were the goals of the biological weapons program?
- Is Lyme disease the result of the bioweapons program or a natural occurrence?
- What organisms were part of the cocktail that Willy was experimenting with?
- What is the "Swiss Agent" and the role it may play in the Lyme disease epidemic?
- What is the "Anthrax Hotel" and the "Eight Ball"? What happened to those that were part of the experiments at the "Eight Ball"?
- What role do viruses and parasites play in Lyme disease?
- Was Willy a good guy or a bad guy?
- Did Willy's own death from Parkinson's disease potentially result from his own experiments?

> Khazarian Mafia: The God Eaters ----- Chuck Swindoll ------- 23.2K subscribers ---- 261,230 views Sep 17, 2023 ---- This video is indeed about the Khazarian Mafia, but more importantly offers the patterns by which they have fed on God by way of humanities ignorance. As Nature creatures we are an outpouring of God, and the only way we can escape the Black Sun, is to understand their modus operandi; this means changing our world view, so that true evil can be seen; for we all have been beguiled with assumptions which disguise the Demiurge. The Khazarian Mafia has worked extremely hard to present a false reality based on inculcated lies, falsified histories, and projected blame. So the point of this lecture is to not only educate the listener to the bloodlines of the Khazarian Mafia, but more importantly, the psychology by which they have eviscerated us. ---------- Eviscerate: To disembowel a person or animal; to deprive something of its essential content - Webster

The Protocols of the Elders of Zion - Examined by Fr. Seraphim Rose --- Orthodox Wisdom ----- 25.4K subscribers ---- 38,346 views Jan 23, 2024 ----- Fr. Seraphim Rose, in his examination of phenomena leading to our modern age, touches upon a most controversial and disputed document: "The Protocols of the Elders of Zion". Originally published in 1905 by Sergius Nilus in Russia, "Protocols" was blessed for publication by St. John of Kronstadt and would not have been possible without his support. One must take a sober, balanced look at this document, which Hieromonk Seraphim Rose offers in Lesson 9 of his Orthodox Survival Course.

1:23 Fr. Seraphim Rose's examination
Saints and righteous ones who thought Protocols of the Elders of Zion was genuine:
-St. John of Kronstadt -Tsar St. Nicholas
-St. Barsanuphius of Optina -New Martyr St. Vladimir (Bogoyavlensky), Metropolitan of Moscow and Kolomensky
-Fr. Seraphim Rose -Elder Ephraim of Arizona -Elder Athanasios Mitilinaios -St. Nikolai Velimirovic -Fr. Ioanichie Balan of Romania ..and more
Other saints who may or may not have understood Protocols the same way, but nonetheless spoke about Zionism and related matters the same way:
-St. Paisios the Athonite -Fr. George Calciu -Elder Justin Parvu ---and more

Publication of the Protocols in the book by S.A. Nilus "The Great in the Little" was blessed by the great Russian saint and visionary John of Kronstadt. Without the spiritual support of John of Kronstadt, the Nilus book would not have seen the light of day. As a contemporary notes, 'Nilus himself did not believe in the possibility of readers' interest in his books. Under the influence of such despondency and pessimism he might not have written his famous work. But it was in order to remove this obstacle that the wonderful visionary St John confidently calls him to the task: 'Write; your books will be bought and read.'" -Oleg Platinov

NOTE: In order to make it clear when Fr. Seraphim is speaking and when he is quoting from Protocols, brief transitional phrases are included, such as "Fr. Seraphim continues his commentary". At times the listener may find this a bit tiresome, but I felt it was essential to include.

_____
Fr. Seraphim: ...a rather controversial document. It is called "The Protocols of the Elders of Zion" and, because it presents itself in the form of a Jewish document, it has aroused a great deal of dispute. If you read any history book, of the two world wars especially; in fact, any history book written before the Second World War, you will find there an almost universal statement that "The Protocols of the Elders of Zion" are a fabrication deliberately to discredit the Jews, that it is a totally fantastic thing which has no reality to it. There are others who take the document so seriously that they tend to go to the other extreme and they see everywhere a Jewish plot so much so that they can hardly take a step without fainting. We must try to look at this document somewhat objectively to see what is actually in it, how it was found and what is its significance.

â€‹â€‹All this is deeply in accord with the philosophy of the Talmud, of the desire of the Jews for a Messiah who is of this world; and it is not surprising that there should be some kind of Jewish organization which has this philosophy. The philosophy is actually that of Marx; the ruthlessness, the using of everybody else for its own purpose, the establishing of one world rule -everything except the fact that Marx did not believe in God.

Nilus himself was a very respected ecclesiastical writer, a popular journalist who went to Optina and even lived there and various other places; and there can be no doubt that he had nothing to do with making up a forgery. He accepted this text as quite legitimate and presented it to the world as a warning.

The philosophy which is described in this document is one of absolute ruthlessness in bringing about a revolutionary government and in the means used to bring it about, the using of people (like Marx used Bakunin), utter hypocrisy, killing off your enemies, spreading pornography in order to corrupt the youth, causing revolutions, taking first the side of monarchs, then the side of socialists, then the side of liberals, democrats; taking any side in order to push across your point of view and eventually come to power. They talk about the control of the press, the control of money, etc.
There are two new things in this whole planâ€¦. 1) they are not atheistic. They believe in one world religionâ€¦. The second new ingredient in this revolutionary proposal is that there will be one world monarch. From an Orthodox perspective, this world monarch will be the Antichrist.

We discussed how we should conceptualise happiness, and how we can explain the rising prevalence of happiness as a subject of public policy.

> Why didn't Russia just plow over Ukraine in days?
> I'll explain.
> Initially, NATO planned to cripple the Russian economy with sanctions. The idea was to win a war of attrition by forcing Russia to attack well fortified positions in Ukraine with bunkers, trenches, and mind fields. Because time was on NATOs side, Russia would need to make a series of quick pyrrich victories at best. Because the sanctions would prevent Russia from engaging in a long protracted war.
> However, Putin started making plans to dodge the dollar weapon by spreading the ruble into a basket of currencies and commodities. The details of that doesnt matter just know that it worked. Guy is a G.
> At the beginning Rissia held back many men to keep them in the economy. Ukraine could enlist everyone because their entire budget is paid for by the US and the rest of NATO.
> Not even Putin knew if his evonomic counter move would work or not. With the sanction weapon failing the entire NATO plan went to shit.
> Putin values Russian lives. The clock was now on his side. So rather than sending in human waves, Russia used it superior range and number of artillery to slowly grind Ukraine down while suffering almost no losses themselves.
> In old times who does the charge? The side with fewer or shorter Canon. People used to fight for high ground because it means you can now shoot further than the enemy ie you can hit them and they can't hit you.
>
> This is a very slow but safe way to destroy the enemy. They call it the meat grinder. If Ukraine attacks they lose the defensive advantage. If they don't attack they get shelled all day and all night. So they are forced into offensives that they cannot do. Russia outnumbers them and Ukraine can only when on defense. But Russia won't give then a desisive battle. They are more than happy to make it rain even tho that's slow and not effective, they are losing nothing but ammunition, no soldiers.
> See Putin figured it out. Can't out money America they will never run out.
> Can't out weapon NATO they have years of ammo. Can out man the proxy force.
> Personnel is not replaceable. It takes 17-18years to make a soldier.
> This is Ukraines weak point. So it's like kick boxing a guy when you know he has limited stanima. Why risk trading in the pocket? Stick and move until he is too tired to move and then destroy him quickly. That's what's about to happen to Ukraine. If Russia wanted to speed it up they could, but they'd lose men. There is no hurry. Ukraine is running out of soldiers via jabs they cannot respond to

> DW sarah kelly @foamyrocks665: This interview is highly stagged. I'm disappointed by Sarah Kelly for permanently pushing the conversation to "Hamas and Palestinias are to blame for the November attack" and not addressing the entire historic framework for why that attack happened in the first place. And saying that Isralians are so shocked and tramutized after the November attack. Then what about the over 20.000 killed Palestinias? How are the Palestinias feel about that?

> "Voices from DARPA" Podcast ---------- In this episode of the Voices from DARPA podcast, Renee Wegrzyn, a program manager since 2016 in the Agency's Biological Technologies Office (BTO), recounts the origins of her current interests in

synthetic biology and genomics, both of them powerful frameworks for engineering biological systems for technological ends. Still wielding influence are her childhood days amidst Florida's abundant wildlife, a science-hooked sister, and a high school field trip in which Renee encountered fossil mastodon teeth. Her subsequent experience in the biotechnology industry got her hooked on the versatile power of combining biology and engineering in ways that can produce new medical technologies, materials, and other products. Along the way, Wegrzyn recounts what for her was a "Sputnik moment" in biology, based on the emergence of the celebrity gene-editing toolset known for short as CRISPR, which has underwritten an immensely powerful genetic and genomic engineering framework. Under Renee's DARPA programs, Living Foundries and Safe Genes, researchers are innovating new means of manipulating and leveraging biology's ways of eliciting traits in organisms and of making molecules and materials while also developing means for keeping those same bioengineering capabilities in check to hedge against their misuse or unintended consequences.

Lithuania "Crossroads of the Baltic
Posted by Adam Smith on June 28, 2017October 18, 2018
Lithuania today is a country with fewer than 3 million people, but has a history stretching back thousands of years, with one of the oldest living Indo-European languages, and a heritage of being at the center of a constellation of empires, including that of Kiev-Rus and the Grand Duchy of Lithuania. But as the 20th century progressed and the First World War came to a close, the small nation state sat precariously between two weakened but steadily rebuilding rivals "Germany and Russia. As the Second World War erupted in 1939, Lithuania was literally torn apart, as the two great armies rolled through. In some ways the war did not end for the Lithuanian people until 1953, when the last of the Forest Brother partisans submitted to Soviet occupation, and after nearly a third of their population had been forcibly removed to the gulag. When the Iron Curtain fell in 1990, Lithuania aligned itself more closely with the West and enjoyed an economic boom, joining NATO and the EU. As Europe today struggles with its economy and a demographic and migration crisis, however, Lithuania looks for ways to retain its sovereignty while maintaining its vitality. ========== -Brought to you by- Very special guest Cathedral Princess @drcathyprince

this big reporter switched to citizen journalism after selling bounds breaking digital trix for many years

he is well positioned to mark the beginnings and ends of new speeds, new cabals, new ways to tweak a public institution into becoming a cover for money laundry, bribes and bets behind the o so respectable facade .. the worldwider the better

Contrast with a mainstream guy who is on radio 4 or 5 days a week with top of the line insiders and academics.

They all go down with the ship, don't they.

Gruesome and creepy insinuations of a draft in Russia that in actuality exists in Ukraine many times worse and documented by and for the people.

The question is always: will transparancy finally gain it's rightful crowning glory position or become the tortured and severed achilles heel again this round / phase ..... blackberry bolstered NATO shadow dealings with Burisma and the like.

Make me the punisher of these 'spelbedervers' / poisoners, please ..... did i mention that i often place my quips under tweets these days? ---- twitter.com/PietyPoet

no doubt like mine .. but i too 'circled' the noncirclers and discirclers with anonymity [except for the ones operating in the open cause they have impunity no matter what truths we surround them with#].

08? is that when the wave of secession favoring began in scotland?
had it worked we might not have had to suffer seeing BorisJ go bribe Z into just carryin on bombing Donbasians and begin to dump serious and seriouser amounts of western sell by date approaching bombs in order to continue doing so ... seeing the usual source of 'his' nation's supply, 'eastern ukraine', was also it's destination!!! talk about 'vagaries of circularity.

The receivers / targets, .. the 'redeemers' not foreseeing they would 'boomerang' in the worst way possible .. thru the air ... and land with a bang, not delivered to disassemble as carefully as constructed but as a statement of 'or else' ownership and domination, ..... all carefully timed to serve as overture to doin this with a few more registers and gears engaged in that sibling occupation known as .... ??? any guesses ????????

..... Palestine ... even the names overlap, as this contest concerns the Pale, an area the second most popular Russian is said to have said he was gonna confine the kommisarites in and to about.

you'll have to use your psygel || spiegel = mirror in dutch, psiegel a wordplay that does not translate without saying, but if you do it right

.. you will find neat watertite overlap w jews being 'forced' / left w nuthin but .... you guessed it ... in-, ob-, re-, trans-, sub- and most of all, PERversions of truth.

But Russkis and Ukies still fall for it all, literally [like redskins almost, ... soooo easy to soften of w spirits and polarize w muscle / bullets, presto, voila, circling 'vicioused'] .. and consequently, are dying over, .. 'rite' alongside Palestinians

Paleans .. Palestinians ... have we any clot and hard heartshort reports from the sinosphere?

i certainly urged Xi and Putin to temporarily rescue Palis from harm's reach to go build a few bio veda shtettlements [noo 'rite' of return!!!] and spoil BigPHarmGameShtickStackery into such a bargain ... but i am afraid these leaders aren't as larpfree as they larp to be [free]. Or perhaps i vastly overestimate the appeal of my 'rebrics RuBriX'.

bout dem bombs to bio transitioning blackberries ...
The ResetCabal makes best use of bombs known to them and the penetration of transparancy is already strong enuff that it has become relatively easy and cheap to show they know ...
.... how to sow sow sow ..... hormone disruptors that ease the transition to GMO and all them family homestead autonomy destroyin labcoatcreepproddickducts ...

# = other than a spacious and hermetic enuff wall for them and their descendants to 'cure out' [uiitzieken in dutch]. I'd prefer sterilization for proven perps and observation even for those of their descendants who left duh familyline gorechorebusiness and haven't comitted those types of crimes, spun up since WWII and goin for all out ... or all in no out also these dazy dayz .. but in the perv cringe dank abject way spoilin broths w pushy button 'control' armies [sans re- ou seduction].

fazit / ergo / conclusione
anyway, anonymize and nothin happens ... or ...

go the George Webb route, focus on the hi up secure ones .. thus far seemingly in vain, .. too busy w their 'vie, manouver, whoremouth n jostle for posish in that most expensive and most evil of coffins [the MafiyaCabal variously known and nameshifted for centuries {Kommisars, bookended by Naz n Bol, fused into zios, emigrated and returned as NATO}, carryin their secret keepin networker and brandmarker of shame n blame, bill and biocide drill], the blackberry, every one of them the equivalent of all pre-digital nuke bombs thus far, including each test, on their 'person'

Smotherin comfort never ended no delusoryite [delusoriac?] goins on n on n on anon .. nor any name n famestealin neither .. so

make mockery love potion number 9 and here's hopin you'll take a break from yar woes and sing it for us ....

forgot to add the 'all out of bombs, now we HAVE to use bio, no choices left, so don't blame us' clause ...

Mr. Benz makes a brave attempt to anthropomorphize the Tech Body.

Be sure to read the comments. He does come up with a useful phraseâ€"'digital MK-ULTRA"â€"for the trajectory I outlined the other day from Marshall McLuhan-Ted Carpenter (1952) to Walter Bowart (Dec.3, 1979) and then on up to Dobbstown (March 18, 2009).

When I was a young sprout I had a few guitar heroes whose work made me want to follow in their path. Lead Belly most of all, but Brownie McGhee was one of those master pickers, and his intricate and sophisticated style is distinctive among country blues players. I never learned too play like him, but he remains an inspiration.
P.S: Those who know Brownie's tune already might have some suspicions about that verse about my stage name (2:00); I admit I sort of stuck that in there, thinking a bit of jocularity might leaven the gloom. No disrespect whatever intended toward Brownie or the song! I'd hope he might get a chuckle out of it, though I'll never know.

This is sad news. One more reason to despise TRS/NJP for wasting people's time and energy and demoralizing them. But maybe you just need to broaden your horizons. The former Alt-Right is full of unserious people. But there is a bigger movement out there. It was there before the Alt-Right. It is here now. Your Waukesha journalism was first rate. I'd be happy to publish work like that at CC.
Also, although I am happy to see people organizing politically, I think that is the best way to measure what we are doing now. Political change follows intellectual and cultural change, and there's often a long lag. We have made great advances in metapolitics, and there's a lot more work there to do. You as a journalist are doing metapolitical work, and good work. You need to keep doing that.

This is reasoning of which elementary schoolers routinely show themselves capable, and yet it is lacking the all these aspiring celebrity clerks proposing the 're-envisioning' of long dead petty bourgeois socialist fantasies, fabianism, and fascism.

What's It Like Being At a Gangbang? With Lucy Belmont
Fluffer B gives us the inside track on what its like hanging out at a Gangbang
HK: Here's the thing. A guy like me? I get sent some articles. I'm so deep in it sometimes people send me articles that are about other articles. But very rarely do they get me thinking as much as the article you sent me last week titled "My Birthday Gangbang," written by sex theorist and writer Aella . The article, as you might guess, is an extremely detailed, thoughtful, and data-driven account of a sex party Aella hosted for her birthday.

RS: And here's another thing. A gangbang? That's a type of hang. As armchair social scientists, we needed to know more. Today we have a Good Hang exclusiveâ€¦ an interview with Lucy Belmont, or "Fluffer B," as she is called in Aella's post.

HK: The Aella Birthday Gang Bang received rave reviews from attendees, especially from a vibes perspective. After talking with Lucy, that's not surprising to me. She was extremely charming, warm, and thoughtfulâ€“someone I'd want at any party!

RS: You can follow Lucy on Twitter or check her website out here.

Yet it's cleaner and safer than any other area in poverty amongst blacks and whites. Crime is virtually non-existent -- There are no slums or homeless people. -- In fact, new construction is constantly going up. Brand new homes and multi family units. Refresh Supermarket and its modernist architecture. Yetev Lev, the main Synagogue and its luxury interior. Despite per capita income at $4,355, it looks the exact opposite of poverty

Izabella Tabarovsky- Soviet Anti-Zionism and Contemporary Left Antisemitism (2019) -- Free Association -- 693 subscribers --- 19 views Mar 19, 2024 ----------
https://fathomjournal.org/soviet-anti... - - - - - For many decades, virulently antisemitic forms of 'anti-Zionism' were central to the cold war propaganda of the Communist states. In this powerful essay Izabella Tabarovsky not only lays bare the entire shameful story of Soviet Judeophobia but shows us that, to quote William Faulkner, 'the past is not dead, it is not even past'. 'This essay is also available in Polish.

INTRODUCTION --- In 1985, the KGB-supervised Anti-Zionist Committee of the Soviet Public, known by its Russian acronym as AKSO, issued a brochure, Criminal Alliance of Zionism and

Nazism.[i] The brochure reported on a press conference that the Committee had held some months earlier. The site for the press conference, the press center of the Soviet Ministry of Foreign Affairs, indicated the official blessing of the messages AKSO had to deliver. The brochure was translated into English and distributed abroad by Novosti Press Agency, a news service and an important arm of Soviet foreign propaganda.

A propagandistic document reporting on a propagandistic event, the brochure painted a harrowing picture of Zionism. Senior members of the AKSO, most of whom were prominent Soviet Jews (an intentional choice on the part of the KGB, meant to deflect accusations of antisemitism) claimed that they had irrefutable proof of Zionist co-operation with the Nazis. They described Zionists as facilitators of Nazi expansionism, accused them of falsely inflating the significance of antisemitism and Jewish victimhood in World War II, and claimed that the 1930s agreement that permitted the transfer of 60,000 German Jews to Palestine had made it 'easier for the Nazis to unleash World War II.' They claimed that Zionists had colluded 'in the genocide against the "Slavs, Jews and some other peoples of Europe".' Speakers concluded by rejecting, in advance, any attempts by 'pro-Zionist press' to represent the committee's assertions as antisemitic; disassociated Zionists from Jews; and promised that Zionism would never succeed in repudiating the 'historical reality' of cooperation between the Zionists and the Nazis.

The brochure might have read as a shocking smear that distorted history had it not been an integral part of a massive Soviet anti-Zionist campaign that entered a particularly active stage in 1967. Its language reflects its epoch "one marked by Cold War tensions, propagandistic jargon that permeated all aspects of Soviet public life, and virulent demonisation of Israel and Zionism. Alleged Zionist-Nazi collaboration and false equivalence between the two were among the campaign's centerpieces.

Designed by the KGB and overseen by chief Communist Party ideologues, the campaign had achieved numerous successes. For a significant portion of domestic and some foreign audiences, it succeeded at emptying Zionism of its meaning as a national liberation movement of the Jewish people and associating it instead with racism, fascism, Nazism, genocide, imperialism, colonialism, militarism and apartheid. It contributed to the adoption of the notorious 1975 UN General Assembly Resolution 3379, which held Zionism to be a form of racism and paved the way for the demonisation of Israel within that organisation.

In the course of the campaign, hundreds of anti-Zionist and anti-Israel books and thousands of articles were published in the USSR, with millions of copies entering circulation in the country. Many were translated into foreign languages "English, French, German, Spanish, Arabic and numerous others. In 1970 alone, the comparison between alleged Zionist and Nazi racism "just one of the campaign's numerous memes "merited 96 mentions (Pinkus 1989:256). Demonisation of Zionism continued in films, lectures, and radio broadcasts. Anti-Zionist cartoons, many of an obvious antisemitic nature, were a regular feature of Soviet publications.

The campaign used the significant Soviet broadcasting and publishing capacity abroad, as well as front organisations and friendly communist and other radical left organisations in the West and third world countries to transmit its messages to foreign audiences. The U.S. State Department viewed the AKSO committee as an important tool within that campaign, one that it classified as a tool in the Soviet arsenal of 'active measures' "'covert or deceptive operations conducted in support of Soviet foreign policy.'

The antisemitic nature of this campaign was appalling. The main authors contributing content"many of whom had direct links with the KGB and top party leadership "relied heavily on antisemitic tropes borrowed directly from the Protocols of the Elders of Zion. Some in the group were closet admirers of Hitler and Nazism and used Mein Kampf as both a source of 'information' about Zionism and inspiration for their own interpretations.

> This is not an easy story to tell, it is a story of great suffering and of families destroyed. During the Vietnam War, the U.S. military sprayed more than 20 million gallons of the Agent Orange herbicide over Vietnam, Laos and Cambodia. It contained dioxin, one of the most toxic chemicals known to man. In the mid-1960s, doctors in Vietnam started noticing an increasing number of babies born with severe deformities and, half a century later, the physical and mental impact that Agent Orange had on so many innocent people is a reminder of the true cost of war.

Christina Buttons -- @buttonslives
I recently learned that researchers use the term Minor-Attracted Person (MAP) because pedophilia refers only to a specific subsetâ€”prepubescent children ages 6-10. MAP is an umbrella term that includes nepiophilia (ages 0â€“5), hebephilia (ages 11â€“14), and ephebophilia (ages 15â€“19). --- To me, the use of an umbrella term makes sense. Here's why:

I became interested in this topic when I was 12, after my 7-year-old neighbor was raped and killed by our other neighbor in his 50s. I had a false sense of security because I thought these types of predators only targeted small children, but I was raped by a 47-year-old when I was 15. There are important distinctions between these two types of predators.
I think sentencing should be harsher, but I also believe that research in this area is important to help us learn how to prevent sexual abuse of minors. Perhaps the term "MAPs" wasn't the best choice. However, I imagine that the researchers who are drawn to this field also care deeply about preventing sexual abuse of minors and do not intend

to normalize it.
Quote -- Libs of TikTok ---- @libsoftiktok: HOLY SHLIT. Gilian Tenbergen, an assistant professor at @sunyoswego likes to advocate for "MAPs" aka ped*philes. Why are college professors defending and trying to normalize p*dophilia?--- 16.5K Views
----- Michael Bailey @profjmb: Thanks for this thoughtful and brave post. As in all areas of science, speaking/writing clearly and making valid distinctions is important. Unlike most areas of science, trying to be clear in area, rather than prioritizing outrage and disgust at all times, will get one yelled at.
----phil illy - @autogynephil: Brave (and correct) post. Chronophilias fall into several groups (nepio, pedo, hebe, ephebe), so it's useful for researchers to have an umbrella label for chronophilias pertaining to people who are legally minors.
----- Ryan Boger - @rboger12: I don't catch all the context here, but it seems like the prof is also making a distinction on the non-offender side of things. If she's advocating for there to be services available for those who seek help as an avenue to not become an offender...that doesn't seem so bad?
---- Christina Buttons @buttonslives: Right. I think learning as much as we can about those who offend and those who don't offend could provide very useful insights.
--- Logic Rules @Jennife76466488: I'm really sorry that happened to you, I hope you were able to heal.
----Christina Buttons @buttonslives: Eventually, but it derailed my life. I tried to kill myself after it happened, was placed in psych hospitals, then a long-term residential treatment center. Had very low self-worth, made bad decisions in adulthood. But finally got my life together a couple years ago. I'm 35 now.

26 thoughts on 'US and Israel Jointly Conspired to Ethnically Cleanse Gaza' Tikun Olam
December 6, 2023 Jonathan Affleck says: Please stop using the legally meaningless phrase "ethnic cleansing." It is a euphemism for genocide. Genocide does not required "forced expulsion". It is an act of genocide to create conditions that encourage a "voluntary evacuation."
Genocide Convention Art. 2, Clause (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part;
The use of the phrase "to commit genocide" instead of the phrase "to ethnically cleanse" is important from the standpoint of law.
The commission of a US federal capital crime cannot be part of the official duties of the president. The president must be arrested to be tried for the US federal capital crime of genocide.
It is easy to identify dolus specialis (specific malevolent strategy) of genocide among Zionist colonial settlers. It is impossible to demonstrate comparable dolus specialis for Hamas.
To be legally correct, any party to an armed conflict can commit genocide, a war crime, or a crime against humanity, but our legal system understands a crime to consist of a criminal act (actus reus) and criminal intent (mens rea). In an active defense, the defendant admits the act but proves that he does not have the intent. If I kill someone to stop him from murdering me or from murdering someone else, my intent is not murder but to defend myself or the other person. When a native resistance movement attacks, it does not have criminal intent against the target but to defend its people from a crime.
A civilian is not always a protected non-combatant. If a civilian is taking part in genocide, a war crime, or a crime against humanity, he is not a protected non-combatant, and the native resistance can certainly kill the civilian without necessarily incurring criminal culpability or liability.

Mens rea is not determined by an objective standard in a court even if the prima facie case asserts mens rea exists. In a criminal case it must be proved beyond a shadow of a doubt. Someone, who does not meet a legal standard of competence at the time of actus reus has a good chance of overcoming the prima facie case.

https://gtequity.tea.texas.gov/twice-exceptional-learners-2e
on Bushnell's autism --- Bushnell was raised in a Christian cult, the Community of Jesus, on Cape Cod. It maintained a rigid structure and discipline common to most such social structures:
February 29, 2024 Jonathan Affleck says: Bushnell may have reacted to the immorality and unlawfulness of US actions that Bushnell was powerless to stop or to impede except by self-immolation.

Since Palestinians began to outnumber Zionist colonial settlers in territory under Zionist control, the Zionist colonial settlers have become crazed and frantic. Since Dec 2022, the attacks of Zionist colonial settlers on Palestinians, on Palestinian property, and on Palestinian communities have been steeply increasing. Zionist colonial settlers have kidnapped and imprisoned thousands of Palestinians. Zionist colonial settlers have been terrorizing Palestinian children and schools. Zionist colonial settlers have besieged Palestinian religious sites. Zionist colonial settlers have stepped up efforts of Judaization of Jerusalem and of Hebron.

Hamas is a native resistance movement within stolen Palestine and hardly differs from a native resistance movement in Nazi-occupied Europe. Just as the Nazis called the native resistance terrorist, the Zionists and their supporters call Hamas terrorist even though Hamas like the French or Polish resistance to the Nazis is heroic. On Oct 7, 2023, Hamas reacted to the unspeakable barbarism of the Zionist regime.

The kibbutzim of the Gaza Envelope are military bases
1. that are intended to make irreversible the ongoing genocide, which started in Dec 1947 and
2. that have been been camouflaged with civilians that have the role of human shields.

A native resistance movement like Hamas is fully justified in attacking such military bases. The civilian residents of such military bases are not protected noncombatants.

Hamas broke out of Gaza to seize Zionist colonial settlers so that they could be traded for kidnapped Palestinians and for a cessation of attacks on Palestinian religious sites. The US federal code defines such hostage taking for exchange to be a legitimate non-criminal act during a war. See 18 U.S. Code Â§ 2441 â€“ War crimes.

When Zionist forces understood the actions of Hamas fighters, the Zionist military perpetrated unspeakably heinous and random slaughter in accord with the Hannibal Directive. Zionist military seems to have caused practically all civilian casualties and deaths during Oct 7.

The incompetent but depraved, murderous, and genocidal Golani Brigade collapsed.

In response, the Zionist regime has revenged itself on the Palestinian population by destroying Gaza just as Nazi forces destroyed Warsaw. Even though genocide is not a legal or legitimate response to any act, the Zionist regime has achieved the grand slam of crimes of genocide:
â€¢ mass murder genocide (Gen. Con. Art. IIa),
â€¢ physical and psychological maiming genocide (Gen. Con. Art. IIb),
â€¢ hostile conditions genocide (Gen. Con. Art. IIc),
â€¢ birth prevention genocide (Gen. Con. Art. IId), and
â€¢ child-kidnapping genocide (Gen. Con. Art. IIe, mostly in the West Bank).

Richard Silverstein says:@Jonathan: I will not publish interminably long comments here. I've warned you about this numerous times. You will be moderated. If your comments are short and on-topic I will publish them. If not, I won't. Is American Judaism Dead? American Jews are incresingly alienated from Israel. Hanna K.: Liberal Israeli or Ashkenazi American Fantasy Film ---- Jonathan Affleck ------ 99 subscribers ----- 10,655 views Jun 11, 2012 ---------- Hanna K. (1983, Universal) is fascinating because of the timidity that Costa-Gavras shows in portraying ethically dubious Zionist beliefs, actions and behavior. The movie depicts problems in the life of an attorney loosely modeled on Felicia Langer. She is defending a Palestinian infiltrator. According to its own internal documentation, the IDF usually simply shoots unarmed infiltrators, but the director and writer uncritically accepts the Zionist viewpoint that Israel actually has a functioning legal system and that Zionists actually make effort to deal with difficult ethical questions as well as they can.

Because the film concedes the possibility that aspects of Zionism might have morally problematic effects, major public controversy accompanied general distribution. The clip shows Hanna, the prosecutor and the judge as they attempt to find an extra-juridical solution to the problem that the defendant presents. Note how the judge makes the usual irrational and unethical Zionist arguments to justify Zionism while he uses the usual psychological triggers about the Nazi persecutions to intimidate Hanna into accepting his viewpoint.

Hanna K. like Torn Apart(1990, Warner Studios) and Double Edge (1991, Faye Milano Limited Partnership) represents a sort of Liberal Israeli or Ashkenazi American fantasy, in which the Zionist heroes really are moral people that strive to overcome obstacles and do right in difficult situations. Such movies do not address the possibility that Zionism might be fundamentally ethically questionable. The depiction of Palestinians in these films corresponds to fantasies about Palestinians from Zionist narratives or propaganda and not to any sort of discernible reality. While individual Israeli settler colonists may be obnoxious or defend themselves violently in the course of the plot, only Palestinians ever commit crimes or aggression in this class of film.

The Fable of the Ducks and the Hens, an anti-Semitic 1959 children's book written by George Lincoln Rockwell.

Ducks Versus Chickens â€“ A Racist Fable For Our Time
Published Thu, 27 Aug 2009 03:36:47 -0500 by Rich Johnston | Over on The V Forum I've been involved in a political discussion about superhero comics. It's my contention that the superhero in essence is a right wing construct, a might-makes-right thesis that exercises personal responsibility over collective contribution, emphasising individual acts of charity over government solutions. And that even though characters and plot may often swing left of centre, even into hard left and anarchy, at its heart, the superhero is a conservative creation.

But it seems I may have been looking in the wrong place. I should have been looking at duck comics.

Donald Duck comics are famously popular in parts of mainland Europe and Germany is no exception. Well, Ducks versus Chickens (Enten Gegen Huhner) is a new comic created by the junior wing of far right German political group, the National Democratic Party (Nationaldemokraten), in tribute

to Donald Duck's 75th anniversary (though without any pesky Disney-baiting trademark ticks) in the manner of a children's fable dealing with the issue of immigration.

The comic told in rhyming couplets, tells the story of peaceful ducks whose lifestyle is turned upside down when a bunch of refugee chickens arrive with spurious tales of fleeing from an evil fox. Lazy and indolent, they have more chicks than the ducks have ducklings and soon the chickens start to dominate, infusing society with anti-duck terrorism, drugs, crime, traitor ducks, homosexuality â€“ cock on cock action, basically â€“ and encouraged to go to war with the neighbouring geese. In the end the only solution is for the ducks to leave the country, found a new homeland and build a big wall and keep the evil chickens out.

This follows the Austrian right-wing party FPO's science fiction fable comic HC-Man And The Blue Planet which saw a superhero taking down the evil European Union.

Thirty thousand copies of the first issue of Ducks Versus Chickens have been printed, are available for sale here and the full comic is available to download for free here.

Not Saved Essays After Heidegger part 1 Peter Sloterdijk
CHRISTIE MALRY ------ 867 subscribers ---- 46 views Jun 2, 2023
https://petersloterdijk.net/work/not-saved-essays-after-heidegger/ --- 300p .. around '17
Sloterdijk also considers several other crucial twentieth-century thinkers who provide some needed contrast for the philosophical physiognomy of Martin Heidegger. A consideration of Niklas Luhmann as a kind of contemporary version of the Devil's Advocate, a provocative critical interpretation of Theodor Adorno's philosophy that focuses on its theological underpinnings and which also includes reflections on the philosophical significance of hyperbole, and a short sketch of the pessimistic thought of Emil Cioran all round out and deepen Sloterdijk's attempts to think with, against, and beyond Heidegger. Finally, in essays such as â€žDomestication of Being" and the â€žRules for the Human Park," which incited an international controversy around the time of its publication and has been translated afresh for this volume, Sloterdijk develops some of his most intriguing and important ideas on anthropogenesis, humanism, technology, and genetic engineering.

Capitalist reforms and extreme poverty in China: unprecedented progress or income deflation?

ABSTRACT ARTICLE HISTORY
It is widely believed that China's socialist economy had relatively high rates of extreme poverty while the capitalist reforms of the 1980s and 1990s delivered rapid progress. This narrative relies on World Bank estimates of the share of people living on less than $1.90 a day (2011 PPP), which show a sharp decline from 88 per cent in 1981 to zero by 2018. However, the World Bank's poverty line has been critiqued for ignoring variations in the actual cost of meeting basic needs. In this paper we review data published by the OECD on the share of people unable to afford a subsistence basket. These estimates indicate that from 1981 to 1990, when most of China's socialist provisioning systems were still in place, the country's extreme poverty rate was on average only 5.6 per cent, substantially lower than in capitalist economies of comparable size and income at the time: 51 per cent in India, 36.5 per cent in Indonesia, and 29.5 per cent in Brazil. China's comparatively strong performance is corroborated by data on other social indicators. Moreover, extreme poverty in China increased during the capitalist reforms of the 1990s, reaching a peak of 68 per cent, as privatisation inflated the prices of essential goods and thus deflated the incomes ofthe working classes. These results indicate that socialist provisioning policies can be effective at preventing extreme poverty, while m....

> WarStrike begins with another groundbreaking article on Littoria recounting the extensive history behind the Jewish invention of human rights while advancing Zionist supremacy in the post-war era to dominate the West. Striker investigates the historically accurate motive behind the rise of Third Worldism and the overall folly of the First World vs. Third Word Marxist theory.
>
> Warren and Striker later delve into Jewish strategies beyond hypocrisy for global division and conquest involving legal court battles, financial surveillance, and the terrifying AI war machine "Lavender."

Warren and Striker uncover chilling propositions entertained by elites in The Great Experiment by Yascha Mounk, the son of Jewish Communists in Poland, to replace monoethnic nations with a new American identity. The book functions as a manual on how to hack the human instinct for in-group, out-group preference and force racial integration and mixing or "inclusive nationalism."

> Next, WarStrike backs these claims with RAND publications on using extremist elements to attack political enemies of ZOG, the latest push for liberals to become martyrs for the system ideology, and Striker's recent discovery of Judaism Unmasked by infiltrator Johann Eisenmenger which exposed Jewish holy texts about Gentiles

james true on urff day

On April 23, 1953, while still an active air force officer, Charles P. Cabell was appointed Deputy Director of the CIA under Allen Dulles. In 1956, along with the CIA's Richard Bissell, he flew to Bonn, to brief the West German

Chancellor, Konrad Adenauer, on the ultra-secret Lockheed U-2 spy plane. Cabell personally negotiated with Chancellor Adenauer for permission to station the U-2 in Wiesbaden and from there to fly over the Soviet Union in violation of air space rights.

Cabell was a tenth-generation descendant of Pocahontas. —---------- Pocahontas was the daughter of Chief Powhatan, paramount chief of Tsenacommacah. In December 1607, English explorer and pioneer John Smith, one of the Jamestown colony's leaders, was captured by a hunting expedition led by Opchanacanough, the younger brother of Powhatan. Smith's exact birth date is unclear. He was baptized on 6 January 1580 at Willoughby, near Alford, Lincolnshire, where his parents rented a farm from Peregrine Bertie, 13th Baron Willoughby de Eresby. ---------- Baron Willoughby married Mary de Vere, daughter of John de Vere, 16th Earl of Oxford, between Christmas 1577 and 12 March 1578. Mary's brother Edward de Vere, 17th Earl of Oxford, married Anne Cecil, daughter of William Cecil, Lord Burghley, and the translator Mildred Cooke. ---------- In 1569, Thomas Underdown dedicated his translation of the Ã†thiopian History of Heliodorus to Edward de Vere, 17th Earl of Oxford, praising his 'haughty courage', 'great skill' and 'sufficiency of learning'.

The Oxfordian theory of Shakespeare authorship proposes that the Earl of Oxford wrote the plays and poems traditionally attributed to William Shakespeare. ---------- In 1857, the first book on the topic, The Philosophy of the Plays of Shakspere Unfolded, by Delia Bacon, was published. Bacon proposed the first "group theory" of Shakespearian authorship, attributing the works to a committee headed by Francis Bacon and including Walter Raleigh.

Delia Salter Bacon's admirers included authors Harriet Beecher Stowe, Nathaniel Hawthorne and Ralph Waldo Emerson, the last of whom called her "America's greatest literary producer of the past ten years" at the time of her death. Bacon was born in a frontier log cabin in Tallmadge, Ohio, the youngest daughter of Congregational minister David Bacon, who in pursuit of a vision, had abandoned New Haven for the wilds of Ohio. ---------- The town was named after Benjamin Tallmadge. The Culper Ring was a network of spies active during the American Revolutionary War, organized by Major Benjamin Tallmadge and General George Washington in 1778 during the British occupation of New York City. The name "Culper" was suggested by George Washington and taken from Culpeper County, Virginia. The leaders of the spy ring were Abraham Woodhull and Robert Townsend, using the aliases of "Samuel Culper Sr." and "Samuel Culper Jr.", respectively; Tallmadge was referred to as "John Bolton". In 1780, the Culper Ring discovered a high-ranking

American officer, subsequently identified as Benedict Arnold, was plotting with British Major John AndrÃ© to turn over the vitally important American fort at West Point, New York on the Hudson Riverand surrender its garrison to the British forces. --------- David Bacon founded the town of Tallmadge, Ohio, which later became the center of the Congregationalist faith in Ohio. ---------- Leonard Bacon prepared for college at grammar school in Hartford, Connecticut. He graduated from Yale College in 1820, where he was a member of Brothers in Unity. Benjamin Tallmadge graduated from Yale in 1773, where he was a member of Brothers in Unity and was a classmate and close friend of the American Revolutionary War spy Nathan Hale.

A statue of Hale, sculpted 1908â€“1912 by Bela Pratt, was cast in 1912 and stands in front of Connecticut Hall, where Hale resided while at Yale. Copies of this sculpture stand at the Phillips Academy in Andover, Massachusetts; the Nathan Hale Homestead in Coventry; the Connecticut Governor's Residence in Hartford, Connecticut; Fort Nathan Hale in New Haven, Connecticut; Mitchell College in New London, Connecticut; the Department of Justice in Washington, D.C.; Tribune Tower in Chicago; and at the headquarters of the Central Intelligence Agency in Langley, Virginia.

Yale Club plaque of patriot Nathan Hale, a spy during the Revolutionary War. ========= The Yale Club location was chosen because it was believed to be where Yale alumnus Nathan Hale was hanged by the British Army for espionage during the American Revolution, although the site of Hale's execution has more recently been disputed. ---------- According to a book published for the club's 1997 centennial, members at that time included George H. W. Bush, Hillary Clinton, Bill Clinton, Gerald Ford, John Kerry and George Pataki. Among others were architect Cesar Pelli and author David McCullough. ---------- In 1972, Frank Mankiewicz famously described John Lindsay as "the only populist in history who plays squash at the Yale Club."

@TokyoShemp ---- 1 day ago: You don't seem to be a paid fake, so subscribed it is. The only problem with your approach is that this is accepted as a parameter of thought safely circumscribed within total control of humans by demented organising over hundreds and in fact thousands of years. The end game is obviously everything recorded, no freedom, everything stolen for thought, no one good allowed any reach, etc., so forth and all the rest of it.

Oskar -- @oskar5724 -- 1 day ago (edited): Hi there. I ... don't know where to begin. Not sure what you're talking about re: total control. YouTube? Or something in Land? In terms of everything recorded...well, specific forms of recording seem brilliant to me. And I'm not creating a new 'text' by recording, but simply multiplying the forms of the original. But I may have misunderstood you :) ===== OH I think you're coming from a dead internet angle. Nothing fake or complex or dead about this. Just reading :)

> Man on Fire
> 2004, R, 142 min. Directed by Tony Scott. Starring Denzel Washington, Dakota Fanning, Christopher Walken, Giancarlo Giannini, Radha Mitchell, Marc Anthony, Rachel Ticotin, Mickey Rourke.
> REVIEWED By Marjorie Baumgarten, Fri., April 23, 2004
> One thing about Tony Scott's newest film is certain: It will be reviled by anyone with an interest in the Mexican tourist industry. The movie's spectacular action and revenge is predicated on the wave of kidnappings that have targeted the country's wealthiest citizens and their children.
> ...snip.....
> After Man on Fire takes its time during the first hour to let us get to know Creasy and the family he's working for (without using flashbacks to show us the precise horrors committed by Creasy during his career as a CIA counter-insurgency operative, but that so clearly still haunt him),

the film turns into a one-man revenge epic for the remainder. Creasy goes after the organized kidnapping and crime operation that is shown to rule Mexico City, although he receives some help from the only two seemingly honest people in the city: a news reporter (Ticotin) and a police captain (Giannini).

Although adapted by veteran Brian Helgeland, the story in based on a novel by the pseudonymous author A.J. Quinnell, whose thrillers are reputed to have their sources in real events. But what distinguishes Man on Fire most is Scott's visual style: It is drenched in post-production work that can only be achieved once the actors have all gone home. Multiple exposures, flash edits, and innovative type usage combine with the jittery and always moving camera angles to create a nervous and off-balanced milieu for the action. Scott uses different type fonts, sizes, and screen placement to generate emotional tones throughout this bilingual movie that uses English subtitles for its Spanish-language dialogue. Although Man on Fire treads a lot of familiar thriller and revenge territory, it is ultimately more bleak and furious than most Hollywood tales of this sort. Man on Fire plays it out to the bloody end, like there's no fire extinguisher in Mexico but for the oceans that hold its borders. ---------- from the Austin Chronicle

â€˜In addition to contributing to the intellectual viability of Marxism, abandoning the last vestiges of teleologism might well make Marxists seem less remote from other activists, for we would no longer be able to justify tolerating non-capitalist crimes against humanity in the name of some inevitable progress toward world communism as the eventual negation of capitalism's negation of all humanity. For Spinozan Marxists, the only certifiable historical tendency is for capital to expand and capitalism to intensify (with all the contradictions that entails). And it is up to us, the multitude â€” without the confident crutch of "inevitable," much less the complacent, tragic sense of "dialectical," historical progress â€” to see that it doesn't go unchallenged, by insisting first and foremost on the goal of realizing for everyone whatever degree of freedom the already-given level of productive forces makes possible. We would become less forgiving of any and all iniquity...and thereby belie any appearance of complicity.'

> Pedophilia and Adultâ€“Child Sex: A Philosophical Analysis Lexington Books. 2015. ---------- This book provides a philosophical analysis of adult-child sex and pedophilia. The sex intuitively strikes many people, including myself, as sick, disgusting, and wrong. The problem is that it is not clear whether these judgments are justified and whether they are aesthetic or moral. By analogy, many people find it disgusting to view images of obese people having sex, but it is hard to see what is morally undesirable about such sex. Here the judgment is aesthetic. This book looks at the moral status of such adult-child sex. In particular, it explores whether those who engage in adult-child sex have a disease, act wrongly, or are vicious. In addition, it looks at how the law should respond to such sex given the above analyses.

We're also doing a deep dive into his history of controversy, how he got tenure in the first place, how to remove a teacher with tenure, and how his colleagues and students feel about him. This ex-lesbo's biromantrix glue duh stix 2 autogyn partneurhub [who did a book and one vid, .. i think Ben said he was part of the DeTransStories but i might be misremembring .. it's been more than 3h and more importantly, i was dividing my attention .. costing me horribly yesterday btw, lost nearly half of my pron faves {{pics, that is, from 70 to 40}} intending to just eliminate 1 double {{thumb of tumblershort w teen on german tram doin a quick rubselfie, in the top 3 in my single digit 'most wanked to' list}} in the process of backing them up] .. but at show-end we are left with a prospect she might bring him along next time ...

speaking of ex lesbos, a few hours later [around

3am, wake as a solar storm resonated bell] i see a rumble thumb intriguing enuff to spend a few mousemovements and tapit{streyee}:

https://rumble.com/v4v5clf-millstone-report-w-paul-harrell-lgbt-psyop-and-strategy-used-against-americ.html

.. leads to an Asheville site where i learn 'acceptance is not approval':

https://wng.org/articles/the-long-game-1714509753

.. and author 'Bouterfooled' further says this in her timeline intro:

> I heard He was bigger than my lesbianism (Matthew 11:28-29). I later came to believe that Jesus, the God-man, suffered, died, was buried, and was resurrected to justify people like me.

> JUNE 2015: In Obergefell v. Hodges, the Supreme Court of the United States, in a 5-4 decision, legalized gay marriage in all 50 states and added the "dignitary harm clause," expanding the legal definition of harm to now include failure to "affirm" one's LGBTQ identity. Five years later, in Bostock v. Clayton, the Supreme Court added LGBTQ to the 1964 Civil Rights Act. And just like that, homosexual "orientation" went from a fringe 19th-century Freudian mistake to our nation's reigning idol. Today, 30 percent of Gen Zers (18- to 25-year-olds) believe they "are" LGBTQâ€”a steep jump from 3.4 percent in 2004.

"unhindered" but not 'openING UP' to Putin i guess ... even tho, ..Jules take note... this was written in 2015, the year Putin signed the 'familienlandsitz' / 'kindomain' / homesteading for russo hippies laws .. effectively deeding land as rewards for 'openwoke' immunity and in little danger of being taken up/over by those crazy 'openers' ...

... we are slowly realizing OPEN is just an antisemitic word with cosmopolitan pedigree ... and so the danger of israel4.0 donning ruraly rootsie 'vedic' tarnung is not out the questZion at all, specially given their {{umpteenth?}} project is blowin itself up with an attempt of evidence erasure so monstrous WWII seems to have only been a preview in hindsight .. and prolly always was in 'clearsight'.

maybe later ... enuff for now ... the rumble thumb has the candyposter i found on the Asheville site sharing space with a bookcover btw:

ps: i wanna try the community thing also / still .. also still on #remineralize basis, ... perhaps we can ask KingJohn.UK for an audience on suggestions .. he seems to know about digging up rocks of legends for some 'unification' or other. no doubt he has taken my 'meeperwat' hints to heart and is just 'son of a glitch Biden' his time like we all are .... AND he seems to be up to date about stunning horses in the running but again, all bets off as long as the 'morpharmafiya' remains in possession of 'vergunning' .. free to run up the clock n road initiatives into poisoned ground ... cause of all the gendershite myopia in the first vicious place ... but not even Ben has time for that, AJ dropped it ... every body except little old perfectly shadowbanned as complement to homegrown shadespensational obscurity me.

the first one i try has a godawful amount of buzzword reps: identification, the first half a minute he plays a truly priceless jewtroon expounding on it ....
ID, personification, anthropomorhocize ... not as much a 2 way street as we, one and all would like and thrive on .. same way gravity becomes a problem when inertia is left to it's own chosen collison courses ... Thus humans betray and/or evince the preponderance and scale weighting of dominance of their [and anything's really] dark hole pedigree ... it sucks the life out of all around or swallows it whole much more than delicately treading on limbs carefully chosen for weightbearing ability.
True subjectivity has to be a contrast between regular grids and the viccisitude of detectable phenoms.

> The Thousand Year Conspiracy â€" Secret Germany Behind the Mask ---- Posted by FTR July 10, 2006 --- Tags: Friedrich List, Underground Reich -------- by Paul Winkler -- 1943, Scribner, 380 pages -- Download Pt. 1 | Download Pt. 2 ..... On origins of German chauvinism to the ascent of the Teutonic Knights within Germanic society, following the Papal Bull of Rimini and the Knights' military defeat of the Hanseatic League. Winkler labels the enablers of the dark side of the German character "Prusso-Teutonics" and notes that, in their pursuit of Pan-German goals, the "Prusso-Teutonics" do not hesitate to deal in a cynical and ruthless manner with their own citizens. Of particular note for contemporary Americans is Winkler's account of the deliberate, Machiavellian manipulation of the German economy by Hjalmar "Horace Greeley" Schacht, the American-born financier who eventually became the finance minister of the Third Reich. Take note of Winkler's account of how Schacht re-structured the German economy with an eye toâ€"among other thingsâ€"driving the citizenry to such a point of hysteria that they would willingly follow the likes of Hitler. Compare Winkler's analysis with what is taking place today in the United States. Will the American people respond to the eventual, inevitable "correction" of the perilous U.S. debt situation as the German people did to the runaway inflation of the 1920s? Will the American people lend their support to a "man on a white horse" as did the Germans of the 1920s and 1930s?
>
> If you're looking for a book that compliments this one I'd check out â€˜The Hidden Enemy' by Heinz Pol, also from 1943. While Winkler focuses on the 32â€“33 period, Hjalmar & von Papen, Prussian history, the Teutonic Nights and some very early history going all the way back to the Egyptian mystery schools Pol focuses on the Pan German Movement of the Early 20th Century, the Black Reichswehr and the paramilitary right during the 1920s. It even makes the statement that the soul of Pan Germanism during that time resided in the Thule Society in Bavaria. Nobody had even heard of the Thule Society back then except people who had managed to get ahold of Sebottendorf's â€˜Bevor Hitler Kam' before it was suppressed. ---- Posted by Louis | August 11, 2018,

3rd restart at 45m .. guess it puts me to sleep good .. maybe sparks a little busy dreamin too

@thealthype: Nick Fuentes didn't stream gay porn.
--1. It only showed up on Cozy, not Rumble or any other restream. If he accidentally clicked the stream button, it would be on those sites. People who've used OBS understand this.
Oddly enough, this makes the most parsimonious explanation - hacking! Very rare.
--2. Nick Fuentes is into twinks. On his MrKrabs9000 account (which was him, groyper denials whatever), he was watching tranny porn, and his infatuation with Jaden he took pictures when he was sleeping. The porn that was streamed was of a bunch of large hairy men.
--3. The video is apparently an old, long-used shock video, super-unlikely he'd be watching that right after a stream.
--4. The video watermark was of a telegram group that seems to be anti-Fuentes.
There's plenty of real, good reasons that Nick Fuentes shouldn't be the front man for the counter-semitic / race realist nexus, but this is clearly a gay op. Literally!

Race and IQ | Nathan Cofnas ---- Brain in a Vat --- 6.05K subscribers ------ 164 views May 19, 2024 ---- Nathan Cofnas argues that distinct populations have developed specific cognitive abilities due to varying environmental challenges.

The conversation explores the definition and validity of racial categorization from a biological perspective, addressing whether certain physical and cognitive differences among races have a genetic basis.

Nathan argues that acknowledging these differences does not necessitate negative social implications but rather an honest recognition of human biodiversity. The dialogue delves into the controversy surrounding race realism in academia, including censorship, accusations of racism, and the consequences of denying or accepting biological differences among races.

> Context is important, coincidence or not, this verse talks about the people like the one who posted, those who distort the scriptures & take rulings out of context.

Are you accusing Lucas of something like this: lots of industries [dis]thrive and come 'alive' [/'make a dying'] ignoring ground in favor of figure yet pretend the conneXzion is there still, like all good figuring sings the praise of grounding like an ancester honouring service ... and short of that, at the very least, the figure / abstraction witnesses turnaround / churn a ground, or, at the last least and limit of redemptivity, indicate the shortest quickest, safest and most pleasant WayBack.

it's the empty grave / arisen beloved :: form / content binary
the dust evacuated from a [grave]stone along 'gone to ...' lines of duhflight .. is already a loss of context .. an unmooring at the start of a hero's quest as it were.
The words, formed by shapes we 'morphoculturally' / 'signilludically' assign meaning to, symbols tracing the borders of their former places, now, lithorally and literally for the foreigners who cannot decipher them, empty spaces.
Contexts are like those rhizo-, aro- and 'nautomatic' scrypts that can pulse in and out of focus real fast and slow, a pattern here a blur there, a grave now, a crib later.

Bottom line tho: the alphabet itself is already in danger of conducting a catastrophic loss of context cause the emphasis on that empty space, assigned a sharable significance ... in fact, runaway sharable once belief ascription comes into play [billfold or playpretend one, sold as the reel thing tho ... your measure of faith ready while u waith ... INexhaustible holybookpage .. skewmost of bedevilin binaries i'd say#] .. favors an irrelevated, castrated remnant / relic of something one can only ever 'pin arbitrarily' as this or that aspect of the 'figure :: ground wave :: particle nite :: day' divides

imagine a nice upstanding lemnisc8 and lop upper and lower bows off. you are left with an x to mark the 'spot'
it's a good symbol for the tentative connection bipeds have with canopies and root

# = in fact, once you declare a figure as "the new ground" [Bob Dean, the Apostle John of McLuhanite Catholicism {'ionandbob'}, is always on about the "hidden effect of a new communication {'communistification', also McLuhanesque insight regarding software} technology"] the sky is the limit if you wanna stack 'figure ground' decantations to infinity till cows come home. Many heros are in fact traitors, treasonous runaways. The real good fight is for the returnees ... don't let zionism steal such a sacred concept.

as far as Mark's condemnation of Ivermectin .... i reserve judgement

HCQ was condemned based on idiotic experiment ... and a strong, brief burst of taking strong measures with something harmful in any longer run is often still the wiser choice over choosing too low a dose of something friendly for years to suppress and contain a problem.

auxilliary pondering by me, ... given and proven that: given that, roomelephantastically enuff, ..

the 'multicultstewrated', that is, the mestizoed, the mutted, the bastardized, the mixblooded 'ones' are indeed the rare hybrids which/that a few people's [anymore] fave jew, Theodore Lessing, was on about in in one of his widely ranging works. And even he was assimilated a few dilutions / 'potencies' [in homeopathic terms] 'further' than and past Herzel as well as being his contemporary nearly. At the very least, their lives overlapped.

given that:
time and time again during my reads of whitie clashes w reddie, it was the mixbreeds that proved to tallie up most victims and 'casualtize' as if it delivered proof of their right to live .. move over, something novel comin thru???

given that:
zionists R archnazis, inspirations for, instigators and initiators of nazi membership [submitter, adherent, etc] practice [method and memery],

given that:
nazis were ruled by and thrived on the idea of protecting the pure 'blond, blue eyed' natives [literally weaponizing that 'thought' and/or humane 'ethnoquity' ideal]

given that:
zionist jews persist in keeping much of it alive, with very not so very secret but all the more effective, shrewd selfserving selective marination sauce. duuuuuh of course,

it stands to reason there's a case to copy yet counter their success . .. life or death is down to fightin fire w fire ASAP after generations of fire prevention negligence .. as follows:

zionists are the champions of natives ...
research about Pali DNA is plenniful enuff to prevent misunderstanding .. althou the 832 dark magic i noted late last october shows that evil ones will approach truth only to defy it even harder ...

the archzionists are no different from the kommisar sons of bolshevist fathers, all of them bent on blowing up host societies if they cannot simply bleed and/or starve it .. and that order seems valid still if you focus on what they go by ...

i hope this helps lookin at the 'piece of Pali Propaganda' i've pinned to my tweetprofile since april 1st with fresh and better informerd, kinder eyes ...

@psychotronic_x Not clickbait at all. Obviously you didn't listen to the pod.

@Joe-sg9ll :: Have you tried listening to the podcast or even looking at the embedded timestamps? -- It's not clickbait at all. -- The whole interview goes over more than just drugs, but also includes lots of discussion about sexual behavior in ancient times, castration, ways deities were worshipped, hermaphroditic statues, abuse of children, ways ancient writings were purposefully mistranslated and redacted, etc.

Ammon Hillman
Dr. Hillman also wrote Original Sin, a work about the use of drug-induced child rape in early Christian ritual
he was fired from UMn, "looking for any excuse to get rid of him after he ruffled administrative feathers by introducing phallic props into a play."

..... he sounds lots better in this one ....

What in the world was Jesus doing with a naked kid at 4am in a public garden? - Dr. Ammon Hillman -- Harmonic Atheist -- 19.4K subscribers -- 26,589 views Jan 20, 2024
T/W - extensive and graphic discussion of cultic drug use and child sexual abuse ------ Today I spoke with Dr. Ammon Hillman, who grew up as a Christian and became active in ministry, but ultimately deconverted as he examined the truth claims of Christianity and understood the ways that ancient mystery cult practices were woven into the Gospels and early Christianity.
---------- Understanding that the "eternal life" that Jesus was offering was Ionic, and part of the message of existing Pythagorean mystery cults.
--------Piecing together the implications of the idea that the disciples of Jesus would have been very young boys hanging around with a 30-year-old man.
----------Realizing that the Biblical prophets were using mind-altering drugs to attain their visions.
----------Seeing how the story of Jesus in the Garden of Gethsemane has a clear background of drug use and child sexual abuse that would have been understood in that era.
---------How Christianity emerged from the Bacchic religions of the Bronze Age and was an evolution of the mystery cults already happening.
â€¢ How the Bronze Age mystery cults used drugs to induce extreme experiences that mimicked dying and coming back from the dead.
---------Grasping the background of what Jesus was doing with a naked boy at 4am in a public park, why a child prostitute recognized the apostle Peter, why Jesus was naked in the upper room with the young boy disciples, and the real meaning behind the Mary Magdalene character.

Danny Jones is a grifter. Besides he kept interrupting Ammon, especially when he was explaining the history of Lucifer. I wanted to hear what he was going to say but Danny cut him off.

Exactly my reasons too. Plus Danny had no idea how to interview this guy. I got fed up with him shutting him down on really interesting threads.

@jproc95 - 4 days ago
I mean, to support Danny, Ammon is an extremely difficult interview. He appears to be high in life or high on mushrooms. Which is cool. But it's really difficult to show this to a square person bc they won't even get past the intro, they will call him a drug user and go back to church. We need to have someone deliver this better. But man when he broke down the Greek it's awesome

@allenbranson5744 - 4 months ago
First time I've heard him. Whatever you think of his way of expressing himself, he is speaking about things that have good evidence behind them but few have the guts to talk about.

@derekcooper2592 lol there's no one. David Hillman has no debates on youtube for a reason. He took 2 verses out of context which doesn't even make sense if you'd happen to read Mark for yourself.

> I hope Elisa/ Jamie/ James / Lisa has not desisted from the point of view in this podcast, as I feel it was very honest and very heartfelt. It was very distressing to watch at times, as like Benjamin expressed the pain and level of deep distress was very evident ; I am hoping that expressing that and confronting it head on may have helped in some way and that they are doing ok. Far from being crazy or anti-trans as some are portraying him/ her ,I see them as struggling with the reality of their condition and not presenting it as something other than what it genuinely is.

His vids on YT was well over a hundred and truly eyepopping and mind-numbing, with info that no one else had...like the mass grave found in Syria, during Obama's time, that contained about 700 bodies of children...all with their organs removed. Maybe this was the real reason the White Helmets were there? Organ removal instead of saving lives? YT took down all of Webb's posts. He was naming names.

George admits to being a Jew (his real name is George Sweigert) and loves the state of Israel...his own admission. Once he lost his YT channel, he bounced around a lot. Every new channel he created, on other platforms, were quickly taken down. I still follow George and his latest info on Substack, about Flynn, was upsetting to me (he also disses "Q"). The thought of that POS being President makes me sick. However, it's been brought to my attention that Flynn isn't really Flynn. Much like Biden isn't really Biden. Waiting for this movie to play out... As for Ivan Raiklyn...very bad vibes from him and not surprised he's a close Flynn team member. ---------- On another note...BoomaSan...I suggest you watch this MrTruthBomb vid about Nick Alvear's GoodLion films. Alvear puts out some good stuff, i.e., his Pervy Hollywood films. However, I don't agree with some of his other films.

a mixbreed / hybrid is by definition and default more violent than his constitutive 'spitigree'; they are and feel special but more importantly, have a too few [of us/me], too many [of them] elbow room syndrom. THIS is one of the great driving forces helping 'jewist'/zionist memes & practice to spread. After compromising neighbourly ness for a few milllenia and building walls around some of them, is genocide a predictably 'rational' outcome?

> Int 785 with George Webb & Boyd Anderson ----- TheMissingLinkLive -- 8.51K followers --- Streaming now --- 949 --- George Webb is an author and citizen journalist who decided, after a long, successful career in technology, that something had to be done about mainstream media news misinformation. Webb left the world of high tech to self-finance six years of doing citizen journalist reporting. Webb also finances a series of news seminars, training seminars, and a helped finance a citizen journalism school in Michigan. Webb has been the frequent target of CNN and other MSM outlets like 60 Minutes, Reuters, Forbes, the Washington Post, and others. "I wear the smear pieces from CNN and 60 Minutes like a badge of honor" says Webb. "For them to devote some much prime time to attacks on me must mean I am doing something right". > With one record-smashing night in his exploding hockey career, Boyd Anderson went from 'the best line in junior hockey' to an international playoff team of champions from Zug, Switzerland. After creating a huge sale to Saudi Arabia, Boyd moves from Toronto to Budapest to Dubai and unknowingly finds himself at the 'Top of the Food Chain'. It is in Dubai, 2007 where he meets Thomas who introduces him into a world of deception and unimaginable Power Weilding Elite, hyper-competitive deal-makers and hungry profiteers, who trade entire lives just as easily as they swapped arena tickets and team contracts, behind the scenes of business , governments and politicians you've heard of. But when CNN announced "Malaysian Airlines flight MH370 has disappeared" on a March morning in 2014, Boyd immediately blurted out, "I know who did this." Horrified, he became an investigator, using his highly toned instincts and perception, along with his memory. Backed up with facts, he saw all the pieces coming together, realizing that hundreds of lives lost were just 'collateral damage' for a 55,500 Ton gold heist. Even worse, using ancient numerology and researching the main players introduced to him from a nearly-forgotten contact who had described a plan for just how Bitcoin, political turmoil in Europe and the Middle East, and even the world's economy would play out -- drastically changing the world as we know it, in just a few years. After spending 3 years investigating and researching, Boyd discovered 3 abandoned Boeing Jumbo 747's left on the tarmac at Kuala Lumpur airport, he finally figured things out. Unable to escape the feeling that all the signs were in place for a scandal that's bigger than Watergate, now everyone needs to know the truth regarding the origin of Bitcoin, Ethereum, Monero & ETC Classic, the Blockchain, Kraken, Brexit, ISIS, Interest Rate Hikes -- and the biggest gold heist-assassination in the history of the world!

Yeah, Fat Moike needs someone to work with him that isn't boring and autistic.
btw, for the curious, last weeks download stats:
>mike-check-007.mp3 - 317 downloads
>TRS1165.mp3 - 1587 downloads
>warstrike_16.mp3 - 799 downloads
... and this doesn't even include the TG downloads, no telling what that is. So it would seem that there still is a willingness to listen to TDS, if they could just come op with something other than the paypig simp wall to get shekels from people. Also, warstrike is steady growing. I would prefer if they cut that Joe Rogan 5-hour length shit down to something more reasonable and released more than twice a week. Reminds me of the old Strike & Mike so far, so not too bad.

The State Department kikes have just declared the Nordic Resistance movement to be a terrorist organization, likely because of their excellent anti-Zionist activism.

The Nordic Resistance movement has an English-language podcast, Warren from Warstrike was on there just last week, it seems that now sending donations from America to the NRM, including superchats, will get you charged with supporting terrorism, basically all American National Socialists are affiliated with the NRM in one way or another, we'll see if kikes use this as a pretext for a roundup of dissidents as they move towards a war with Iran.

They're honestly getting unbearable. They have been putting out absolute trash lately. I actually agree with them about covid and vaccines and the implications of all that in politics. But they won't stop fucking talking about it.
I GET IT.
They keep burning entire episodes just to talk about hobbies or just hyper-focus on some irrelevant shit. Every time the conversation starts to get back on track, Sven or Alex will go out of their way to bring it back to the irrelevant topic.
Sven's pissiness is getting real old too. He tells his jokes and if the entire show doesn't stop and react to his pun he'll get huffy and start getting agry. He's like a big fucking baby.
And again, I'm saying all this and I still agree with their political stance. I'm not just some seething rightoid, I'm

talking about listening to these people talk on a podcast. The shows have been total cancer and I don't get why. I just look forward to Warstrike now. They do waaay more content and it's all good content that's actually interesting and current. The few times TDS talks about anything interesting is when they're ripping off Striker and Warren. They don't say where they got it from or acknowledge Warstrike even exists. And this is all because "you don't hear anything like this anywhere else."
Yeah I do Mike, I hear it on Warstrike and it isn't a trainwreck of an audio product that is constantly plagued by derailments, interruptions, and bitching about the same shit that everyone already knows about.
God forbid anyone ever says this to him, because Sven will then do an entire show on Oliver Anthony just to spite everyone.

Nah his best stuff is his streams. The streams on Century of the Self, Pat-Con, ADL Files, Hollywoodism â€" all top notch historical stuff for understanding how we got here.
True, some of his streams are low effort but I forgive him.
For more geopolitically oriented stuff, more scholarship and less documentary watching, there's also WarStrike. Those guys are based as fuck and more realistic.

How the truckers split indigenous Canada === 24 Feb 2022

5x in 2020 [1st Q]:

Covid is the common enemy we've been searching for
The virus has united the country and in doing so, made us all a little emotional
Mental health â€˜experts' are shamelessly exploiting Covid-19
The industry is rife with practitioners opportunistically selling their services online
"Happiness' is a bogus metric By deflecting attention from material problems,
we are seeking to reform people's emotional reactions
The Left and Right outrage machines are stuck in the past
Today's identity politics stems from 18th and early 19th century reaction to the Enlightenment
The medieval trial of Caroline Flack
Trying to remove 'bad influences' reflects a pre-modern idea of what it is to be human

How the truckers split indigenous Canada We are fed up with being viewed as virtuous victims
Ashley Frawley --- February 24, 2022 --6 mins --- Canadians aren't known for the depth of their political feeling. If anything, our easy-going passivity is often a point of pride and distinction against our overzealous neighbours to the south. Yet if the recent Freedom Convoy revealed anything, it was that deep rifts do exist in Canada â€” and they could soon boil over.

Will Assange Talk About Braverman? Seth Rich? Ode To Eric Braverman - The Real DNC Leaker

ODIOUS ODE TO ZIONISM???? includes a snap of secure drop coder Trevor Hawkins .... GW on Braverman Zuckie Podesta Pale Rich and Wikileaks SNIPS:

> We also exposed four other CIA overthrows planned by David Petraeus and the Clinton Foundation that Eric Braverman was expected to conduct on behalf of Hillary Clinton before he balked at the job in 2015 and began leaking DNC emails in 2016 to protect his innocence. We didn't miss a trick regarding the DNC emails, Eric Braverman and John Podesta, in 2016. And we are not going to start now. Julian Assange has now pleaded guilty for no reason to conspiracy, and he has made his deal with the devil DNC, in my estimation, with that guilty plea.
>
> Now, the DNC emails have mysteriously disappeared from the Wikileaks website, and Hillary Clinton has announced her new book the same day
> In 2016, I reported that Podesta used Seth Rich to lure the first batch of sanitized DNC emails to try to entrap Trump into colluding with the Russians and Wikileaks. Podesta lured a second batch after the "death" of Seth Rich to try to entrap Trump a second time. I went to Washington, DC, in 2017 to find any evidence that Seth Rich had actually died.

> http://dilyana.bg/the-pentagon-bio-we...
> Additionally, they have forgotten to delete these document from the US Federal contracts registry, you can find it attached in this link: rom the pdf file it becomes clear that the Pentagon has awarded a contract to a private company to rebuild and equip two biolabs in Kiev and Odessa, the end date is 2023. Another reason for the US Embassy to delete this data could be that the US is afraid what Russia could find in these 11 biolabs in Ukraine. https://sam.gov/opp/0bd0de5ba5f94fc29...

> In Part I, we hear Dave (Sweigert) Acton discuss Youtuber Marcus Conte's accusation that George Webb and Jason Goodman were former lovers before they had their infamous split back in 2017, shortly after the Port Charleston "Dirty Bomb Hoax." Acton, Webb's brother, alleges that the rumors are, in fact, true regarding their relationship. He also goes on to explain the death of researcher Jenny Moore who died allegedly from an overdose. The Truther/Alt-Media community found her death very suspicious as it occurred in a hotel room right before she was supposedly going to interview an alleged rape victim of Bill Clinton. ---------- In Part II, Acton talks about the Marcus Conte/George Webb ongoing drama whilst enjoying his lunch. He notes that Conte intervened in the Webb/Goodman larpsuit by writing to a federal judge that Acton had committed criminal acts. Conte and fellow Youtuber Denise Matteau ("Tooth Fairy") at the time accused Acton of being in a criminal gangstalking operation.

I cannot think of another society in the history of the world that advocated, openly, for the murder of children. For the slaughter of innocent beautiful children and babies. Only Israel has done that.
Dr MJ, Mr Boh: ngle one? That's odd
RK: The list is actually endless. Steppling knows his homeland rc in Norway sent Rom children to Auschwitz to be vivisected by Mengele, but perhaps like his fellow Nazis he doesn't deem them to have been innocent or beautiful, but antisocial vermin.
George --- @Makropulos19: So Israel is following a Nazi precedent? Tell us something we don't know.
Red Kahina: Your contention is there is no precedent and the ruling class has always respected and cherished children. The Taino and Pequot and Tasmanians and Roma and Cathars and Armenians and Crusade-era Jerusalemites and Trayvon Martin and all the rest fell down a hole while playing.
You think the ruling class spares children, even after this massive child vaxing and sacrifice in the imperial core itself, because you don't see children butchered on House of Cards etc which is what you take for human affairs on earth
it's obvious why as the empire escalates its sadism, exterminism, lawlessness and apocalyptic tyranny, you take this opportunity to insist on its innocence & virtue, and that what we are witnessing and experiencing is an aberration, mad rogue petty booj, which BRICS will halt. You're negationist peddlers of Nazi apologia and pseudohistory, the nonsense of career commie- killer Col Baud veteran of Apartheid regime's war on the ANC. 'Red separatists in Donbass never existed' = NATO propaganda for you Holodomorons. You're covering up for the assassins.
George - @Makropulos19: What happened to you Molly? When you argued with John Steppling over Adorno you at least made sense. Now you appear to be talking in tongues.
Red Kahina: This pitiable dummy-spitting does not support your claims about the serious topic of the purported benevolence of white supremacist imperial death squads toward children, or Gladio Col Baud's racist pseudohistory. Happy to live-stream public debate it with you if you dare.

> In our series, "Echoes of Laurel Canyon", we have introduced you to Mob lawyer Sidney Korshak, who also made Presidents and decided what movies would be made in Hollywood. He is the most crucial person in the world, you probably don't know.
> Korshak started his career as the lawyer for Chicago Mob Outfit bosses Al Capone, Frank Nitti, Frank "The Waiter" Ricca, Tony Accardo, Sam Gianacana, and his Los Angeles man, Johnny Roselli. But his role in getting Israel key technology in aviation, rocketry, and nuclear technology is an untold story.

For a few weeks, a face and article about a Northern European politician calling for the execution of proPalestinian student protesters as "aiders and abettors" almost simultaneous with Chuck Schumer's identical diatribe conflating protests with antisemitism. He appeared to be foreign national. I can neither remember his name, country he represents nor find the article mentioning his conduct in my internet history. With this limited information, can you provide a link to this pol's article?

-----Rich: Found it. Reliable anglin. Ireland councilor Azad Talukder said "I'd like to see them (the rioters and not the guy who stabbed 3 children) them shot in the head or bring the public in and beat them until they die". He later retracted this statement as "emotion only". https://dailystormer.in/ireland-bangladeshi-local-politician-says-anti-invader-rioters-should-be-killed/
--------niqnaq: I know what you mean: "It never happened. Nothing ever happened. Even while it was happening it wasn't happening. It didn't matter. It was of no interest." â€“ Harold Pinter, Nobel Prize acceptance speech
----------Rich: Well I'll take that as a compliment. My post inspired someone to recollect a Nobel laureate's words. Even unintentionally as my intent was, that's a good thing. Yet, I read your reply several times before i "saw" Harold Pinter's name. For some reason my eyes "saw" John Pilger and someone as deserving of The Prize.

> Hugh Turley - The Murder Of Ernest Hemmingway -----
> Jun 29, 2024 - 53m 48s
> Hugh Turley returns with another deep dive into the people involved and surrounding murky circumstances surrounding the death of writing giant Ernest Hemmingway.
> Ernest Hemingway was one of the most celebrated writers of the 20th century. With his novels such as The Sun Also Rises and The Old Man and the Sea still studied in classrooms across America today, Hemingway's legacy continues to inspire generations of readers. But the controversy surrounding his death lives on as well.
> On July 2, 1961, Ernest Hemingway died at his home in Ketchum, Idaho. The New York Times reported that he accidentally shot himself, and Blaine County Sheriff Frank Hewitt initially said that no foul play was suspected.
> But just two days prior, Hemingway had been released from the Mayo Clinic in Rochester, Minnesota, where he'd been treated for depression and other mental health struggles. People soon began wondering whether the famed author's death was truly an accident.
> Note : Ernest Hemingway may well have had secret contact with Soviet intelligence agents

> WTD ep.129 Jon Uhler L.P.C. 'psychopathy & pornography' ---- WakeTheDead -- 588 followers -- 4 hours ago - 25Vs ... Jon Uhler L.P.C. returns to Wake the Dead to discuss how pornography is integrally connected with psychopathy. Pornography to a psychopath is like gasoline to a fire. This conversation continues from our last discussion on episode 122. Pornography is a weapon to destroy our consciousness & trap Mankind into an easily controllable, carnal beast mindset. Certain levels of pornography's depravity require it's viewers to silence their conscience & agree with immoral behavior. This habitual progression dulls & ultimately mutes our innate morality. Creating de-facto satanists, pornography is a useful weapon for the psychopathic controllers of society. Turning culture toward moral relativism & ego. Please excuse Sean's terrible audio.

this triggers me into playing devil's advocate against muhsulph ... crawl into the skin of my accusers ... weight the 'appearances against me' [schijn tegen in dutch] till it hits unbudgeable ground, the continental mantle below the layers and layers of dutch clay .. play hardestball spinning even harder if need be.

ok, so .. did i have nasty, illigit, irresponsible, happy go lucky [fliere fluiter], opportunistic, hedonistic fantasies?
check
did i hold them in check?
again [AND against]:
check !!!!!!!!!!!!!
was i lying in my attempt to explain what i was after?
No!!
Were and are the ways in which my intentions were misread wrongheaded, illwilled, etcetera? Yes!!!
Am i being blackballed, ostracized, gossiped over and vulnerable imagination inflamed at my expense with constructs, ghosts, mislabels, projection screens erected all around me, poisons invading me to the point of near paralysis as recounted in the link below? Yes!!!!
i trust your judgement and would appreciate a vetting of said material, trusting it will be a valuable and urgently necessary addition to the balls you attempt to juggle.

close up? yes, closeted up? been a kinda private person in many ways, yes ... but nearly closed up? Read the attempt to shut me down ... page 267 to 531: a crime, by hindsight far pHar[m] worse than creep neighbour's stealth Glyphosate 'alibidinally' / ostensibly 'gainst doorstepstonecrack dandelion, despite days of obvious daily watering evidence, ... a weed sprouts in hearts and minds of broken humans [onkruid exists in minds and hearts of onmensen only, onkruid is a creation of hellish humans and dandelion is a powerful herb].
Who knows how many more years i will have to battle the effects of glyphosate cause i refused to believe the people that had already broken my life and in more ways than i suspected then?

i'll grant Joh Uhler that it's worth examining wether i dismissed suspicions perhaps the exact same [but 'miroreversed'] way in which [so, as reflection of the phAct] i refused to see my actions in the worst possible light or at least as dubious as obviously they appear in an 'overboard' crowd who'd rather mistrust eyewitness reports, do not verify but prefer to unleash inflamed imaginazions via 'remote', 'safely' in their safe spaces.
I for one, refuse to "let me be mis understooood" and lucky me, i never left intentions off to the side, or as compensatory offside and too far outasight [reffing my hippie to grippie evolvature, an intention i have evidence for stating from around the early noughties#], on the contrary, i was always on the look out for opps to feed'm into the weave from the tiniest clay speck n smear on up into larger and larger ones, god knows clay scales .... the nebukadnezar dream works in reverse ...

# = turfed my use of this word on my birthday [early june]:

'grippie'=15x and grippy=3x .. in 993 p worth of 'adjacency' notes for 5y after 2015
the 6 years before that i used it 13x in 750 pages
13x also in the preceding 422p 4 4y from 2011
43x in the 1959p first volume w a digest of the eighties and nineties, then daily entries from '99, broken up maybe 10x av. a moon each since ...
here's the ckiqur: no gripology

anyway, .. Biden would say ... to pick back up at why not just me but we suffer 'far far worse [pharm harm] ... will have to wait after i finish the twist in my recent fate:
to wit, the struggle to emerge from the psycho-paralytic pit of unbelief and refusal to accept that jealousy, even the most malicious and deadly can easily hide behind the common usage rules, decency acts, installed, dialed into this region by the likes of Dupont and daughter Chemours, phonyin it up into

ponyin up toxfree worldwonder windmill custodian status [modern ones are an affront to that heritage in every way tho their were flaws to being with, explained elsewhere, to do with sedimentation kept out -buitendijks].
Said companies nestled right at the mouth of one of the world's most influential, and as all of them, most vulnerable deltas, twisting that 'fluflo such that Hell is real and rite [t]Here, .. as a reward for their 50s Ohio waste crimes?

postscript: perhaps you'll return the favor, turn tables on yursulph and viuow your woik as perhaps the ignition for said 'inflamed imaginations and own up some responsibility for them twisting my fate into a massive glyphosate block swallowing perhaps half the rest of my life! Mebbe? ..
Here's hopin ...

ps: i own porn images and films ... not a single piece of the pedo variety among them ..

this [plus remarks to Ashley from yesterday]:

pps: struggling to finish 2/3rds thru ...
so biased and sooooo one sided
have you even ever read 'Demonic Males' and would you like to 'larp' as the ones on the wrong side of the river in that book?

i'll try end on a lit[h]er note: clay turns me on ...specially if it's the right temperature, just as cold water can when i reach proper heat degree ....

1h60: now i get the low views, it's cringe bias .... why bring up, harp on n on about and/or 'defend' [plausibly denialarping "as a" 'fender offer' of demonized stayshun strayzion station identification] bondslack n -loss but ignore bondbundling [bondknit, bondbraid, bondweave to none of possible 99 degrees of unbreakabiliteaze]??? watch out, you'll hurt yourself with that ...

permaculture IS the solution for .. perp and victim alike .. that's the beauty of it

Is Sex Work Anti-Capitalist? ---- Sublation Media with Douglas Lain ----- 13.6K subscribers ------ 1,698 views Mar 28, 2023 Fatal Dates
Lotte Latham's recent memoir "Dear Mr. Andrews" is "a millennial's journey through the precarious landscape of sugar dating in the 21st century. Latham embodies the modern-day hedonist."
In this fatal date novelist Susanna Kleeman discusses the power of objectified women with Latham.
Dear Mr. Andrews
https://www.amazon.com/Dear-Mr-Andrew...
Fatal Dates
https://fataldates.com
@LotteLatham: I feel I should mention for clarity that I don't think sex work is anti-capitalist. BUT submissive desire and perversion (for me) is... If under capitalism a "desirable" commodity can be traded for at a higher exchange-value. Subverting that and learning to enjoy being a worthless object is a form of resistance: It's like refusing to play the game. My book is about my masochistic crush on a John who never paid me. HOWEVER: That's certainly not a vision of how sex work ought to look. I've also engaged in sex work to pay my bills and that's a totally different thing. And quite a different discussion to the one that Susanna and I were having.
---------- @user-wl2xl5hm7k -=- 1 year ago: Makes complete sense. Honestly, my take is that many commenters on this video have deeply ingrained authoritarian, SWERF beliefs that are difficult for them to address. I feel you don't have to explain yourself. Sex work can definitely be anticapitalist. Thanks again for doing the interview btw.
---------- @LotteLatham: Thanks for your comments: I don't mind explaining! It's a good platform to explain to. Not preaching to the converted, clearly (he he) - SWERFs aside I'm hoping to find a bridge between Marxist discourse and sex work. If anyone knows any resources; Do let me know.
---------- @user-wl2xl5hm7k: You have an awesome attitude. I believe you're doing the good work.
As far as good resources that cross Marx and SW, there are few atm. I havent read it yet but sounds like your book is a good addition, combined with autobio and literature focus. I've seen Silvia Federici mentioned a lot for feminism and Marx: But I havent read her. She may lean SWERFY.
My take is that the best thing to do for working class SW rights is full abolition of intellectual property laws, followed by worker co-ops for SW. The reason online SW is so regimented and controlled is because very large corporations take the copyright-monopolies (an intellectual property) from the SWers.
This is how it would work for stream mate if it existed after full intellectual property abolition: Every person would get 100% of the rate charged.
And worker co-ops would oust anyone (particularly men) who have no purpose except as a pmp. Worker co-ops for SW is the most anti-capitalist thing that can happen for SW that we know of. This is to my knowledge, and I believe it's correct. Hopefully some of this helps
---------- @LotteLatham: Agreed on both counts! not to mention the conservative payment provider situation.
---------- @user-wl2xl5hm7k: Is this for online sex work? How would that work with providers owning their own content? - But yes totally! Effectively taking a cut makes these large corporations (like OnlyFans) pimps. Even though they can't bring themselves to say the word out loud ofc. The hypocrisy of it all!
--------- @LotteLatham: I know of an online platform which operates like this: It's a SWer-led independent escort directory. It has resources for providers, including advice on where else to promote yourself. It doesn't take a cut unless you want to boost your profile. It's a far friendlier experience. Are there any examples that you know of SWer co-ops in countries where it's been fully decriminalised? (Sorry, I'm tapping you for info! You seem very well-informed) Thank you x
--------@user-wl2xl5hm7k: That independent directory sounds awesome! So intellectual property laws actually aren't about protecting property. They're technically anti-property. They're about monopolizing ideas, and extracting money with that government given monopoly. Or even just preventing someone using those ideas just because you feel like it.
Intellectual property laws are horrible and the most anti-working class laws humanity has. I feel strongly about the need for the soonest full abolition of intellectual property laws.
If I made you curious and you want to learn more about full abolition of IP laws, see a playlist of the best videos on IP on my channel
As some brief info about how IP affects SW online, so copyright monopolizes computer code/software. So all the software of stream mate is monopolized by a certain business entity, this monopoly is how they take a cut from you. If they didn't monopolize rhis software, then any other person or entity could just copy this software and use it themselves. This means any SW co-op could just copy the code from the website and stream for their own SWers, keeping 100% of the cut.
Copyright also monopolizes all audiovisual works (movies)

too which is how the biggest, most profitable, and useless companies in the SW movie, and website, space stay in business and extract value from SWers.
As far as worker co-ops go, I think using them is a good tool for now, but I believe they won't be allowed to flourish in our economy until IP laws are fully abolished:
New worker co-ops will always have to compete, directly or indirectly, with the large established companies that have extracted the IP-monopolies from workers.
As an aside, IP laws were relatively young at Marx's time. He was unaware of how they worked, so he didn't address them at all or about how they affect the working class.
Against Intellectual Monopoly is the most informative book humanity has on the subject now. Against Intellectual Property is another incredible essay, but it's written from a right-wing perspective so you'll have to read with an open mind and extract what's helpful.
Hope at least some of this is helpful or interesting
----------@boorhaave5880: Yes, it's not a bad conversation but the title of the video is very misleading

> The CORE FANTASY that drives women to ORGASM and WHY ------- MyNonLeatherLife --- 114K subscribers -- 759,640 views Sep 24, 2021 ---- The video that changed my life: â€¢ Gary Yourofsky proves the Animal Holo... A very important disclaimer: Kinks and fantasies can be dangerous and potentially traumatic or abusive. If you are acting out an intense fantasy, get consent, have an in depth discussion and a safe word. You need to be on the same page because you are playing with fire so play safely.

Women are telling you what they fantasize about...body, mind and soul...in the genre of literature they have created to stimulate themselves erotically called ROMANCE.
I boiled it down to the formula ALPHA IN LOVE.
This title represents two core aspects of the female evolutionary dating drive. Both are key for the most complete orgasmic bliss a woman can have.
Attracting the ALPHA is step one and making him fall IN LOVE is step two. Do not proceed to step two before she is convinced of step one.
Alpha can mean different things to different women. It does not mean only BUFF RICH HOT and CONFIDENT but that the woman assesses you as worthy and deserving for her personal tastes and instincts.
1. Alpha= the instinct for good genes that will bring survival advantages to her offspring and will protect her against other guys
2. In love=the instinct to create a super strength unbreakable emotional bond to keep the guy around for division of parenting labor.
The heat and the depth of many women's fantasies spring from these two goals.
If only I could: attract the alpha and inspire an unbreakable bond built off something I have that no other woman has.
Common female kinks and sexual fantasies develop around glorifying and eroticizing aspects of this goal.
So knowing this you can incorporate this core concept into your dirty talk or love life or romantic life to turn a woman on at the deepest level.

> On Å½iÅ¾ek the capitalist clown, the circus on the Left, and cultural imperialism w/ Gabriel Rockhill --- The Barricade -- 3.46K subscribers ----- 4,171 views Streamed live on Feb 18, 2023 ---------- On the Barricades hosts Maria Cernat and Boyan Stanislavski invite back the French-American writer, cultural critic, and activist, Gabriel Rockhill. Gabrielâ€™s work in academia led him to a very close understanding of the bourgeois cultural and intellectual apparatus for its fundamental, historical role of bringing leftist thinking in line with the interests of the corporate elites and capitalist order. We have Gabriel back, this time to elaborate on his latest article about Slavoj Å½iÅ¾ek, who is perhaps the most well-known example of such a pseudo-leftist intellectuals symptomatic of the neo-liberal cultural apparatus.
>
> With a huge platform and reputation, Å½iÅ¾ek decries the possibility of revolution and now positions himself emphatically as pro-NATO and pro-war in Ukraine. The example of Å½iÅ¾ek reveals much about the anti-communist cultural imperialism but also related problems plaguing the "left" much discussed and analyzed on our show. Gabrielâ€™s work is in dissecting these problems using materialist historical tools to explain the important way such trends have ramifications not only in the discourse, but materially and in the sabotage of global working class struggle.

> Highlighted comment ---- @mollyklein6355 -- 7 days ago The Chinese Communist Party today, Kissingerians, and the ruling class that runs it are beautifully compatible with US empire, (this phrase 'the compatible left' is the coinage of Doug Valentine and names his analysis. Rockhill doesn't cite DV whom he's pilfering from because he doesn't want students to read those books about how spooks really function and also how real antiimperialist dissident intellectuals in imp core really function/ed.) The kissingerians in Beijing today are generously delivering their re-dispossessed masses as slaves to wall st, and delivering drones to the Israeli regime for its extermination of the US empire's insurrectionary MidEast masses, and Rockhill's apology for them is 'TINA' and then he cites the world bank praising privatization at us. A lot of Rockhill's material here is taken from my talk in 2014 (excuse my halting speech I was on the eve of nasal surgery) and my paper that was published in Belgrade Sociology Yearbook, both of which I agreed to send him _after he wrote me for help_. But he has taken my analysis including my critique of intellectual history and twisted it into an apology for the Kissinger-led Dengist counterrevolution in China. His CTW, like the Larouche organization, is sponsored by the Chinese gov thru Chinese unis and institutions. See alphonsevanworden.tumblr.com and ../watch?v=IrEJW3INm58 ---- 14

> @TheThe1776: President Trumpâ€™s attempted assassination was an INSIDE JOB! President Trump had long been determined a threat to the Deep State and the only way for the Deep State to survive is to STOP Donald Trump from ever entering the White House again! -------- George Webb excellent research shows us the incredible Cheney, Yearick, Cheyenne Tactical Weapon Connection. Not to mention bulletproof glass and plastics patents, all in one shootout. -------- The murder weapons chosen both by Yearick and Crooks for the Trump assassination was the Cheyenne Tactical Weapon, the CheyTac CT-15, made in Dick Cheneyâ€˜s home state of Wyoming. Roger Yearick developed the CheyTac sniper rifle, with .408 rounds four times more powerful than a normal AR-15 from Yearickâ€™s designs at Carderock Naval Surface Warfare Center. The Cheneys are family friends with the Yearicks from Wyoming. ---------- The predicate Cheney cited for suspending the BWC Convention was that Anthrax was found in the wreckage of Flight 93 near Windber, Pennsylvania. The investigator who concluded that Anthrax was Officer Tony Guy. ---------- Twenty-three years later, Sheriff Tony Guy would be the Butler County Sheriff who would look the other way from his Command Post overlooking the American Glass Building 6 while a twenty-year-old assassin would almost take the life of Donald Trump. --- the 'blue shirt vid -------- 5:25 PM Â· Jul 31, 2024 ----- 22.4K Views

Pedophilia Documentary ----- Dissecting Darkness ---- 2.51K subscribers --- 155,592 views Dec 6, 2021 ---- @MsLindamee --- 3 weeks ago ------- This is without doubt the best documentary I've watched regarding pedophiles. I don't know which year it was made but i seriously doubt something like this would be made in this era, we can't offend the pedophile, his feelings might get hurt.
I was abused when i was 6, it totally ruined my life, not physically but mentally. It's taken me 50 years to come to terms that i am worthy, that life is not about sex. My abuser is long dead but he lived a normal life, when i learnt he had died i felt a physical weight lift from me. An abuser might serve a few years in prison, the abused serve a lifetime.

@MsLindamee: @eyelavadershine to my shame I was quite promiscuous as a young girl, believing that it was alright to be like that. It wasn't till my 20's when I realised how wrong I'd been. I didn't even realise that what he had done to me was abuse, I know that might sound strange but I was a child. I've buried 2 husbands and divorced 1, none were what could be called my soul mate but even now when I have less years in front of me I still hope he's out there looking for me lol. Thank you for your message xxx

The Grey Area: Perspective of a Masculine Female Keagan Anfuso --------- 2.58K subscribers ------- 179,907 views Premiered Jan 5, 2024 ------ A documentary exploring the damaging consequences masculine women face for rejecting societyâ€™s expectations.

Your contributions help us keep this film accessible: http://keagananfuso.com + Drew Lewis Brown: http://drewlewisbrown.com == thegreyarea.filmâ€‹â€‹â€‹â€‹â€‹â€‹â€‹

SYNOPSIS: THE GREY AREA is the story of Keagan Anfuso, a

young adult female who is more masculine than feminine. Since birth, her life has been heavily affected by antiquated definitions and stereotypes of gender in oppressive, strange, comical, and terrifying ways. Throughout the film, Anfuso shares her fears and insecurities caused by bullying and gender stereotyping, as well as her unique and surprisingly simple perspective on her place in todayâ€™s culture. Featuring re-enactments of Anfuso's experiences and interviews with other masculine women, THE GREY AREA helps viewers understand gender expression and how to support children, teens and adults to be themselves.

His previous book, State of Terror: How Terrorism Created Modern Israel, was praised by the eminent Israeli historian Ilan Pappe as "a tour de force that looks boldly at the impact of Zionism on Palestine and its people in the first part of the 20th century," and "the first comprehensive and structured analysis of the violence and terror employed by the Zionist movement, and later the state of Israel, against the people of Palestine."

"The Condor Trials: Transnational Repression and Human Rights in South America" (Yale University Press, 2022) by Francesca Lessa is the winner of the 2023 Juan E. MÃ©ndez Book Award for Human Rights in Latin America. The judges were unanimous in their choice of the winner.

Through the voices of survivors and witnesses, human rights activists, judicial actors, journalists, and historians, "The Condor Trials" unravels the secrets of transnational repression masterminded by South American dictators between 1969 and 1981. Under Operation Condor, they kidnapped, tortured, and murdered hundreds of exiles. South America became a zone of terror and impunity for those who perpetuated the violence.

Lessa shows how networks of justice seekers transcended national borders to win justice for victims. Based on extensive fieldwork, archival research, trial ethnography, and over one hundred interviews, "The Condor Trials" explores South America's past and present and sheds light on ongoing struggles for justice as its societies come to terms with the unparalleled atrocities of their not-so-distant pasts.

The Juan E. MÃ©ndez Human Rights Book Award is supported by the Duke Human Rights Center at the â€ª@FranklinHumanitiesâ€¬, Dukeâ€™s Center for Latin American and Caribbean Studies, and the Human Rights Archive at the Rubenstein Rare Book & Manuscripts Library. â€ª@dukeuniversityâ€¬

https://www.amazon.com/Blowing-Americas-Mind-Princeton-Control/dp/0997055995 Not since A Beautiful Mind has there been a true story involving Princeton and altered states of consciousness - but unlike the story of the breakdown of a Princeton professor, in Blowing America's Mind the dose of madness is deliberately induced in Princeton students at the nearby (and now defunct) New Jersey Neuro-Psychiatric Institute under the guise of expanding consciousness, attaining nirvana, and improving sex lives.
Jeremy Kagan, Professor at the USC School of Cinematic Arts and Chairperson of Special Projects for the Directors Guild of America describes Blowing America's Mind as: "a fascinating journey of love, drugs and covert governmental intrigue. Suspenseful in documenting the impact of the 'Psychedelic Revolution' at Princeton in the late 1960 s, the book is a complex, poignant drama detailing CIA-sponsored hypnosis and LSD research, as the famous all-male Ivy League university is on the eve of going coed and on the edge of imploding."
How did America's CIA get caught up in things like psychedelics, deep hypnosis - and Princeton student life? This historic entanglement of the CIA, deep hypnosis, LSD and the Ivy League happened because the CIA in the 1950's and 1960's experimented with new devious ways to impact the minds of its enemies - both foreign and domestic - including its own retiring agents (to erase memories of classified information), and also supposedly-dangerous internal hostiles ... such as college kids fighting against Vietnam War atrocities. The secret program was called MK-ULTRA, and the well known Princeton alumni who co-authored this book were among the guinea pigs.
For fifty years, no one has stepped forward to reveal the insider true story of how innocent Princeton students got caught up in and nearly done in by the CIA s late-sixties LSD-laced hypnotic research. Now the story's out in the open.

That's an interesting take on the Trilateral commission - considering the U.S. has monopoly control of oil for Japan and Germany then Stockholm Syndrome indeed. I didn't realize till recently that fascism is considered a stunted aberration of imperialism - so Germany did not succeed well for imperialism but Germany did rely on Armenian slave labor for a German imperial railroad built via Turkey, as detailed by Professor Christopher Simpson in his "Splendid Blonde Beast" book. So also there's the German genocide in Namibia - and even in my home state the German colonial association targeted the local native indigenous Dakota with extermination. So the U.S. then invaded the Philippines - to maintain control after Spain - since the U.S. elite was scared otherwise Germany would take over the Philippines. We can see then that Western imperialism - be it via Japan, Germany or the U.S. - is now controlled via multinational corporations that really are not "serving" their nation-states. For fascism in actuality the chemical giant behind the holocaust relied on

a collaboration with U.S. steel - I.B. Farben. We know that the Bush dynasty was working for the Nazis - as U.S. investment shelter - and G.M., Ford, IBM, Coca-Cola, etc. all worked closely with the Nazis. Yes the European Union punishes the PIGS - based on financial imperialism!! The Debt-slave dynamic is led by the U.S. but certainly the Saudis with oil control have an elite corruption - with the CIA working with global military regimes to support multinational corporate elites. Wayne Madsen's expose on Drumpf as the Fourth Reich is more appropriate - also the new "Gangster Planet" book about to be published by Kris Millegan on behalf of the late Daniel Hopsicker. It seems national boundaries are almost obsolete - when you get corrupt collusion among drug smugglers and spies as assassins, etc. working to prop up the banking elite. Douglas Valentine's book "Pisces Moon" interviewing CIA drug smugglers first hand - who live in Indochina - in the early 90s - this stuff works with a global criminal elite. https://www.youtube.com/watch?v=7sLepwvmvOA&lc=UgykyJs6diiwUynNgbN4AaABAg.A7Apcr_JoO9A7DF_bP0JPj

https://truthout.org/articles/the-propaganda-system-that-has-helped-create-a-permanent-overclass-is-over-a-century-in-the-making/ The Princeton Radio Project, which began in the 1930s with Rockefeller Foundation funding, brought together many psychologists, social scientists, and "experts" armed with an interest in social control, mass communication, and propaganda. The Princeton Radio Project had a profound influence upon the development of a modern "democratic propaganda" in the United States and elsewhere in the industrialized world. It helped in establishing and nurturing the ideas, institutions, and individuals who would come to shape Americaâ€™s "democratic propaganda" throughout the Cold War, a program fostered between the private corporations which own the media, advertising, marketing, and public relations industries, and the state itself.

@irmab9044 we had a "grand upright" actually - it was loud!! that looks like a nice spinet!! I was always a hack player. I had to memorize the classical music for my concert. I was playing noise grunge rock music around the same time also. So the two was quite the combo! I barely survived my classical piano concert by memory - stumbled around through a Mozart sonata. hahahahaha. It was pure hell - no one said anything to me about it. My piano teachers were embarrassed though. They survived! I only played improv - free jazz after that - with no training - so not good at all. Then just got into meditation! That's about it. Haven't played in decades. the piano is limited to equal-tempered tuning but it's still got a lot to it. I suppose my best performance was the RAchmaninoff prelude number 10 in church - I had the music to read. hahahaha. https://www.youtube.com/watch?v=KHGd624HzDc It sounds impressive but it's just a lot of big chords and arpeggios - not difficult to play. Now that I think about it - my teacher was proud of my memorizing of Bach - she thought I did it fast. That got me into chamber music camp but I was definitely the worst performing musician there! Still I was more into the philosophy of music!!

Why so many Witches are TERFs? - The Transmisogynoir of JK Rowling against Imane Khelif ----- Activist Witch ---- 5.28K subscribers --- 14,862 views Aug 12, 2024 #imanekhelif -- leave me a Tip and get a Tarot Reading at https://ko-fi.com/activistwitch ---- Have you noticed the witchcraft to fascist pipeline? Whether it's feminists too concerned with reproductive organs to be the reason women supposedly embody the divine feminine, to the maiden mother crone archetype to the heathen and Norse circles going bio essentialist in an effort to put value on blood and heritage? It's not by chance. A lot of smaller publishing houses present themselves as apolitical while publishing the works of fascists such as Julius Evola using them as trojan horses to affect culture. In this context it was no surprise to see Scarlet Imprint going sull TERF against Algerian Female Boxer Imane Khelif, claiming they were a man just because they don't adhere to a cis white and dainty beauty standard. In this video we explore the dangers of this pipeline.

In this episode, we dissect the common myth that Ashkenazi Jews possess significantly higher IQs than other groups, exploring the data and studies behind these claims. We delve into how selective data representation and cultural factors contribute to Jewish success, rather than inherent genetic advantages. The discussion challenges widely-held stereotypes, highlights the importance of cultural practices, and examines the role of public discourse in shaping societal perceptions. Join us as we unravel the complexities and uncover the true factors behind Jewish exceptionalism.

The Euthanasia Discussion ft. Ashley Frawley
THIS IS REVOLUTION podcast
17.1K subscribers ----- 895 views Streamed live on Aug 24, 2024 -- Welcome to today's episode of This Is Revolution, where we delve into the complex and often controversial topic of euthanasia. Known by terms such as "Death With Dignity" or "Medical Assistance in Dying" (MAID), euthanasia is increasingly presented as a humane option for those suffering from terminal illnesses or chronic conditions. But is it truly a compassionate choice, or does it mask a more troubling reality?

Since Canada implemented the MAID program in 2016, there have been 44,958 deaths under the program, with 2022 alone accounting for 4% of all deaths in the countryâ€”a 31% increase from the previous year. This rise in MAID-related deaths has saved millions in healthcare costs, raising ethical questions about the role of euthanasia in society. Does it offer a dignified end for those who can no longer contribute economically, or is it a method of disposing of those deemed unproductive, such as the elderly and those with addiction issues?

The expansion of MAID to individuals with mental illness and even "mature minors" has sparked global debate. Critics warn of a slippery slope where euthanasia might be seen as a solution for those facing not only illness but also poverty and other social injustices. Our guest today, Professor Ashley Frawley, has written extensively on the subject. She highlights how some academic papers argue that MAID serves as "harm-reduction" in an unjust world with little chance of improvement, suggesting that allowing euthanasia in such cases might prevent further suffering.

A significant portion of the population seems to agree, with one-third of Canadians supporting MAID for individuals whose sole affliction is poverty. Is this a sign of a compassionate society, or are we edging toward a dystopian reality where economic productivity defines one's right to life? To explore these pressing questions, we are joined by Professor Ashley Frawley, who will help us navigate the ethical, social, and political implications of euthanasia.

Please welcome Professor Ashley Frawley.

> It's strange that when a field like economics rejects a far left theory like Marxism because it's disastrously wrong the far left theory leaves economics but joins "critical theory" and "cultural studies", fields where seemingly no one cares about being wrong. Similar thing with psycho analytic thought, post modern philosophy, etc. And then people can get phds in being totally miseducated about the world.

HEADLINE: The Great Martyr Made Freakout by Rod Dreher
Sixteen years ago by my count is the 1st time I was challenged on my American Exceptionalism idea.
There were great men in WWII. Great valor and acts of courage but those men where pawns. The image of Empire had to be created.
Eric Sammons on X: Some might wonder why it matters what we think of Churchill and the Allies. No one debates so fiercely the Spanishâ€“American War, after all. Why does it matter? Because World War II is the founding myth of the American Empire, and Winston Churchill is its prophet. ------- Every conflict, every intervention, every expansion of American dominance around the globe since the 1940's has been defended by the belief that "we can't be Chamberlain, we must be Churchill." Every immoral action to defend and expand the Empire is justified in light of Nagasaki, Hiroshima, and Dresden.
This is why people, especially neocons, emotionally freak out whenever someone dares question the actions of Churchill and the Allies. If Churchill and the Allies weren't perfect in all their decisions, then the myth begins to crumble.
Remember: relentless propaganda is necessary to support any Empire.
Any criticism therefore is an attack on the religion of American Exceptionalism. So its disciples just revert to name-calling ("Nazi Apologist") because they fear any objective look at the historical record might weaken that religion and the American Empire.
To be clear, this doesn't mean every criticism of Churchill and the allies is automatically right, or that some actual Hitler sympathizers don't use these criticisms to advance their vile views. But that doesn't negate the fact that our history books are mostly propaganda organs for supporting the continued dominance of the American Empire, so they ignore any problematic decisions made by Churchill and the Allies.
I highly recommend Pat Buchanan's book "Churchill, Hitler, and 'The Unnecessary War': How Britain Lost Its Empire and the West Lost the World" for a deeper dive into bursting the Empire's founding myth and its prophet.

Where do we get the myth of American Exceptionalism?
Donâ€™t confuse that with not having exceptional Americans.
There are Italian exceptionalism, German and English too.
How do you prove American Exceptionalism?
How do you disprove it?
You can read almost anything by Thomas Lorenzo too.
Lewrockwellâ€™s website has some great things too on this topic.
They also needed to steal the thunder from actual history teachers from Universities. They had to have historians to go along w/ this.
So how did they do that? They enlisted a guy named Leo Strauss, he then passed that baton to Harry Jaffa.  If you look into Leo Strauss, dig a little deeper, Strausses paths crossed with Saul Alinsky. The greatest fake community organizer. He was Obamaâ€™s great hero if you remember.
To have a hero you must have a villain.
You go down this path it might alter some of your views.

Ry yesterday: The hysteria is because Churchill gave Palestine to Zionist fanatics and effectively destroyed Europe as a super power. The people who need him to be a hero are the same ones acting like Nazis in Ukraine and Israel. If you did a venn diagram of supporting Ukrinain Israel and Churchill it would just be a circle. They are not better than Hitler they are the same.

Darryl Cooper: Any criticism of the behavior of the Israeli military in Gaza is met with the inevitable question: "Well, what about Hamas? How come youâ€™re not criticizing Hamas? Why are you letting Hamas off the hook but only focus on Israel?" What is there to say about Hamas? Hamas sends suicide bombers onto buses full of women and children in the middle of the day. We know what Hamas is, and it is a waste of my breath to criticize them. The same thing happens when I criticize the role NATO and the United

> States played in creating the conditions that led to war in Ukraine. "Why are you a Putin apologist?" Imagine if, after the Abu Ghraib prison torture scandal broke in 2004, someone had tried to divert criticism using this tactic. Why arenâ€™t you criticizing Al Qaeda in Iraq? Why are you only focusing on what US occupation forces did, but what about Al Qaeda in Iraq? Itâ€™s absurd, and we shouldnâ€™t be cowed by it.

> Country roads, take me homeâ€¦ to my friends: How intelligence, population density, and friendship affect modern happiness
> Norman P. Li, Satoshi Kanazawa
> First published: 04 February 2016

We propose the savanna theory of happiness, which suggests that it is not only the current consequences of a given situation but also its ancestral consequences that affect individualsâ€™ life satisfaction and explains why such influences of ancestral consequences might interact with intelligence. We choose two varied factors that characterize basic differences between ancestral and modern life â€“ population density and frequency of socialization with friends â€“ as empirical test cases. As predicted by the theory, population density is negatively, and frequency of socialization with friends is positively, associated with life satisfaction. More importantly, the main associations of life satisfaction with population density and socialization with friends significantly interact with intelligence, and, in the latter case, the main association is reversed among the extremely intelligent. More intelligent individuals experience lower life satisfaction with more frequent socialization with friends. This study highlights the utility of incorporating evolutionary perspectives in the study of subjective well-being.

> Justifying Slaughter: How the Cult of Messianic Zionism Conquered the West | Thomas SuÃ¡rez ------ tailgunnerjim --- 6.01K followers --------- 4 hours ago -- 59 -------- SOURCE: Media Education Foundation --- 12.4K subscribers --------- 148,300 views May 3, 2024 ---------- Acclaimed author and researcher Thomas SuÃ¡rez, a former West-Bank resident and faculty member of Palestineâ€™s National Conservatory of Music, appeared at UMass-Amherst on April 16 to talk about the historical roots of Israelâ€™s ongoing ethnic cleansing of Palestine, the complicity of Western governments in manufacturing consent to the continuing horrors unfolding in Gaza and the West Bank, and what it will take to fundamentally transform Israelâ€™s current apartheid policies and liberate the Palestinian people.
>
> SuÃ¡rez, who is also a professional concert violinist and world-renowned cartographer, is the author of four books based on exhaustive archival research into the history of Zionism, Zionist terror, and Israelâ€™s formation.
>
> Thomas SuÃ¡rez's most recent book is Palestine Hijacked: How Zionism Forged an Apartheid State from River to Sea, which Noam Chomsky called "a damning story, heavily documented ... far too revealing to be tolerated." His previous book, State of Terror: How Terrorism Created Modern Israel, was praised by the eminent Israeli historian Ilan Pappe as "a tour de force that looks boldly at the impact of Zionism on Palestine and its people in the first part of the 20th century," and "the first comprehensive and structured analysis of the violence and terror employed by the Zionist movement, and later the state of Israel, against the people of Palestine."

How traditional culture is destroyed explains why Chinese have bad manners --- Lei's Real Talk ---- 201K subscribers ---- 790,004 views Feb 16, 2022 #ShenYun #TeresaTeng ---- Chinese people are very proud of the 5,000 years of Chinese culture. But when they leave China, the bad Chinese behavior often leaves them embarrassed. Many attribute Chinese touristsâ€™ bad manners to a lack of education or proper breeding. But thatâ€™s not the case. When traditional culture is destroyed, an ancient civilization is turned into a troubled nation plagued by bad behavior. And is there any hope?

> Drasius Kedys STOP CHILDREN ABUSE DUBLIN 2012 04 01
> Date posted: 2012-05-31 10:42
> All the story, about the pedophile scandal in Lithuania. The girl was born in 2004. Her father is DrÄ…sius Kedys, and mother -- Laima StankÅ«naitÄ—. The parents lived together for several years but later got divorced. According to the decision of the court, the custody of the girl was granted to

the mother; however, she did not take proper care of her child. Having learned about this, the father decided to bring the child back. The court approved the decision, the mother refused the custody of the girl and the custody was granted to the father. The girl returned to live in the house of her father and saw her mother only rarely. However, she started telling that while living at her mother's she had been raped by some men, and that her mother Laima StankÅ«naitÄ— used to take her to some rented flat, where she had to satisfy sexual needs of three grownup men, had been molested, and sexually abused. As soon as DrÄ…sius Kedys learned about this, he immediately referred to the police asking to initiate a preliminary investigation.
The investigation was soon initiated; however, when it turned out what men were being accused of the paedophilia, the investigation was discontinued abruptly and illegally.
One of the named persons was Jonas FurmanaviÄ?ius, the judge of the Kaunas Regional Court, the second -- businessman and politician Andrius Åªsas, and the last one was not identified and was referred to as Aidas by the girl.
Father DrÄ…sius Kedys submitted more than 200 statements to the Lithuanian law enforcement authorities asking to investigate the case of paedophilia consistently and radically.
Nevertheless, such proper, detailed and honest investigation was not initiated. Finally, on October 5, 2009, DrÄ…sius Kedys was announced missing. On the same day, judge Jonas FurmanaviÄ?ius and Violeta NaruÅ¡eviÄ?ienÄ—, the sister of Laima StankÅ«naitÄ—, who, according to Kedys, had also been an alleged accomplice in this procuration case, were shot in Kaunas. DrÄ…sius Kedys was charged publicly with this crime, even though neither his fingerprints on the firearms, nor other facts proving this crime had been detected and confirmed. DrÄ…sius Kedys was also defamed publicly by the press, where he had unduly been blamed for drug abuse and partnership with members of criminal gangs, even though no such things had ever occurred in the life this honourable man and father.
Potentially corrupt Lithuanian law enforcement authorities did not initiate a detailed investigation of the death case of DrÄ…sius Kedys. In April, 2010, he was found dead -- evidently beaten and murdered. His body was found near the Kaunas Lagoon. The official version stated that had been drinking and "choked on the contents of his stomach." However, independent experts confirmed the conclusion that he had been beaten and drowned in the water.
HELL IS HERE-DRASIUS KEDYS DAUGHTER BRUTALLY TAKEN FROM HER FAMILY AND GIVEN TO HER PAEDOPHILE MOTHER!!!!

Notes toward transformalism(s): a poetics?
Abstract: From MallarmÃ© to Bernstein and on, creative producers have for their own reasons sought to terrestrialise the <<blancs>> of the page. Exploring spatiality, this paper takes its cue from T.S. Eliotâ€™s concluding remarks in â€˜Reflections on Vers Libreâ€™: â€˜there is only good verse, bad verse, and chaosâ€™ (Eliot 1965: 189). Eliotâ€™s final clause â€“ chaos â€“ is mobilized here as generative and excursive, a strategy which can open heterotopic sites to problematise the horizontality of the poetic line

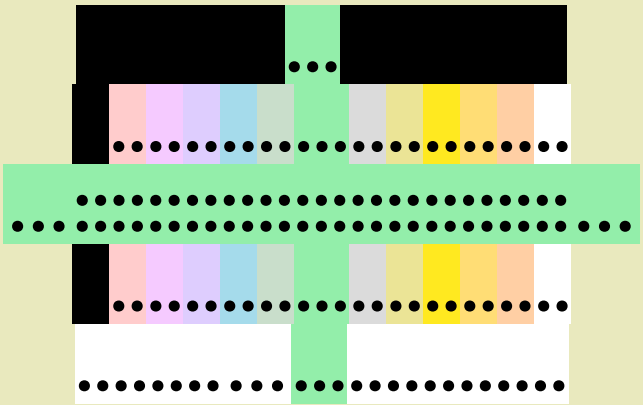
mudmoney is the one and only true money, .. fake money is the magic well that churnaturns every 'noticer' into a jew, attempted to poison it, dippin dirty hands as deeply as possible but it's wild enough to instantly dilute the effect and bring general wellbeing down just that immeasurable and imperceptible tad to escape 'notice' .. unless the antinoticer happens to stand by and A witness, B interpret it correctly but then also C enjoy the respect gettin something done about it ... but their reach is as unnoticeable as the crime itself is



ineluctable, blanketing as incessant as constancy itself conveying illusions never ever happens.

NonZionism - Radicalization is just the first step ---- Alex Kaschuta ---- 14.2K subscribers --- 705 views -- sep 26, 2024 --- alexkaschuta.com/â? â? â? -- â? / aksubversiveâ? Our conversation explores the journey of radicalization within dissident thought, focusing on the evolution of anti-Semitism, the complexities of ideology, and the personal beliefs that shape one's identity. We reflect on our experiences and the broader implications of these ideologies in modern society. We also explore themes of spiritual independence, racial awareness, the impact of liberal ideology, personal health transformations, the dangers of low IQ societies, the role of eugenics, the complexities of anti-Semitism, and the importance of the smart fraction versus average IQ in society.

Pedophilia and Adultâ€“Child Sex: A Philosophical Analysis.Stephen Kershnar - 2015 - Lexington Books.details
This book provides a philosophical analysis of adult-child sex and pedophilia. The sex intuitively strikes many people, including myself, as sick, disgusting, and wrong. The problem is that it is not clear whether these judgments are justified and whether they are aesthetic or moral. By analogy, many people find it disgusting to view images of obese people having sex, but it is hard to see what is morally undesirable about such sex. Here the judgment is aesthetic. This book looks at (...)

@LaramidiaWX -- 2 years ago: I've been consensually sexually active since I was 6 years old and I can tell you that Kershnar is absolutely correct that children's sexual rights should be respected. My experiences were entirely positive and I was never abused. I know lots of other people with similar experiences too. People claiming that Kershnar supports child rape are liars. He made it very clear that rape is obviously immoral and he only challenges the criminalization of CONSENSUAL age of consent violations.

Thank you for engaging with Kershnar and standing up for his right to discuss his views. If someone thinks his views are wrong then they should explain WHY they are wrong, not just be loud, angry and censor him. -- 6 @davideddy2672: You appear to be as sick as him! @serversurfer6169: You're lucky. We were always worried about getting caught. ðŸ˜œ @LaramidiaWX: @serversurfer6169 Oh for sure, we learned to worry about getting caught when adults freaked out about catching us with porn. I meant the sexual experiences themselves were positive. The negative responses of adults were traumatizing. father and son storm chasers in canada: https://www.youtube.com/@LaramidiaWX

Clinton ON ÅƒASTY KIWIS +17 [2022]

Null's response to the death of another subject, Julie Terryberry, also struck me as strange. In a post titled, -How Our Community Handles Death,â€? Null wrote:

We are also afraid of seeing messages wrought with unnecessary and frankly embarrassing expressions of guilt. You were not important enough in her life to be even partially responsible, and believing you were is [sic] self-aggrandizement. There is enough selfishness involved in the act alone; no one needs you playing up your shitposts as murder weapons to complicate matters.

Was his message aloof but morally engaged, or was he purposely minimizing the role his website might have played in a woman taking her own life? The answer to that is genuinely unclear to me. It's much easier for me to put myself in the position of the people who are the butt of jokes, the lolcows, though I've experienced it to a much lesser degree.

> We spoke about the various possible causes of homosexuality for both men and women, whether or not the 'born this way' account is true in a scientific sense, and the existence of third gender categories in non-western cultures.---- In the extended part of the episode, we spoke in more detail about paraphilias, including paedophilia and hebephilia in men, and masochism and hybristophilia in women. Is 'paraphilia' a political term, rather than a scientific one?

> https://emilkirkegaard.dk/en/2022/10/what-has-feminism-done-for-women/
> She was only 1 rule away from joining the Jordan Peterson 12'er club! It's hard to disagree in general with the advice, but holding off sex for several months reveals how far Perry is away from the average woman. By her own reasoning about normal distributions, Perry should realize that she is on the far left out of the sociosexuality curves, so this advice is rather extreme and won't be doing women any favors. Holding off until the third date might be a reasonable length for modern women, while still enough to keep the impatient cads away. -- And, above all, listen to your mother.

QUOTE from a while ago:

> â€˜Reality shifting' is, simply put, when people shift their consciousness to another timelineâ€”an alternate realityâ€”including ones with fictional elements. My friend EsmÃ© Partridge esmelkpartridge.com/post/spirituality-in-the-postmodern-world ----- has written about reality shifting extensively through the lens of occult studies, and contributor Clinton has touched on it (though unintentionally) through the lens of media studies in some of his articles on this very website.

ziodistractivism comes in 2 flavors:
1: distracting from zio crime [christian ziopity]
2: hiliting ziocrime [seperayzion, dis- and extraczion from all things good, true beautiful and necessary].
An 'ampute of more respectful handling than this focus [on matters at hand ... this perverting focus on vital matters of long run life or death]; case in point, snakes vs rope tricks .... zios are by no means alone or original here. That would be sufficient to ensure that they are not in breach with either s 22 (5) or s 33(6). As I have said, I would hope that the issue of these children being cared for by the State does not arise.

if you do mean to show the trajectory of "political violence restraint and harnessing" into a constructive force you'd best realize that the clay feet as base and starting point for literally growing just kin[g]ship are the starting point default you aim for and promote, but dutch bible vector base for rallying occupation force membership makes a mockery of that.

you don't have to look into Black Sea related geopolitics too deeply before 'minor diffs of narc'sm' causi belli appear and the veritably cringiest of those at that: inflection diffs ... after all, everybody could grow everything they pleased, traffic wasn't a real big thing so breaches bursts and such bumpity things were flipped into rubs just too icky to tolerate LET'S FEIGN A LITLE EARPAIN, ALWAYS THE LAST REASON FOR A LAST LITTLE MUZZLE ACTION BEFORE GENERAL CELEBRATION IN THE ASTERIX THE GALLIER SERIES

About them diplomats ... i mean FLIPS PERPED .. by the 'intrigant', the infilltraitor .. the hater of both

sides ['hates' installerende installateur], .. laughin at their fates behind their backs the harder they fall for his 'whitie whispering' usin n abusin one trusty baitset after another, bow and arrow, shield and spear, pill and potion, .. the purveyors of church and state.

Christianity for instance, as i keep tryin to help my 'lieve lezertjes' to realize, didnot so much stolen back from the romans as taken over from them, thanks to wanderlust n visionquest abuse by double agendated spies ... almost a 'gezinsherenigingsbeleid' perhaps not explicitly planned but certainly starting countless generations earlier .. it's the backside of the mirrormeme 'next year in buelahlahland'.

InterLude
Neoteny seduction .. micro neotenite [oxide] reduction, soil building by lanky lankmoedige rocksqueezers and treegrowers .. VERSUS the stocky macho deadweightliftgriftin anthropomorphukt [closet feminated .. i think the expression for muscle man in Holland used to be 'klerenkast']

Since then, wild and rapidly saddening times came and went such as those during which honoured guests were taught to detach from and betray 'their own people [now far away, easy to speak ill of and abandon when the price is right].

Another aspect of this 'migraprobe' [probaat has the meaning of good in dutch presently, prolly wasn't always so, if i may hazard a guess]

... is the gamble [turns out either way, double or nothing; an atlanticist nevergreen]

in the early shape of exchange students formalism. This gradually took over [and center stage] from what i 'stenowed' in paragraph 3 and 4 of this which in turn rested on a still wider stack with millenia worth of hostages, captives [ringleaders preferably, to take the sting out of rebellion in 'prospective annexiae, subjugatables, colonies, etc]

Once reaching such outreach objects they like to playact decency and good sense, calling all probery proper and possibly proprietation spinoffing propriety, subsumable under the 'extension services' nomer in the occupied turtle isles for instance.

.. where was i? Oh yeah, ... .leaders .... severed from their people to subdue them, such as jesus in the roman fort of british Chester [thanks again Ralph Ellis].

Perhaps a good place to put down my contrition visavi my mother in writing, .. finally:
mom, sorry i was incommunicado so often and long ... it must have made the life of a solidity appreciating capricorn living hell unnecessarily and a constant temptation to call me an ingrate or act like i was one.

Took a while to learn the new treason tricks which soon bled into breeding rights and all that good BritBug ThugSluggeree but 'Beware The Return Of Prodigal Sons' became widely applicable.

It's one thing to realize the brokenness of souls and society thru-out the Pales but quite another to look at the way the Zogged OrkeyDorkeys in Media and Gvt of Cunttrees like The Netherlands can be blind to all this and cheer the slaughter which is indeed trying to rival sacrificial snuffpolicies of the Holodomor .. THEY BLOODY WELL SPONSOR IT AND MAKE ALL TAX PAYING CITIZENS ACCOMPLICES!!!!!!

ANC Report: Up until 1939 the Austrian painter's party had killed about 1000 people, which is bad and they had arrested far more. Meanwhile the Soviets had already killed ten million by policies that caused starvation and they had mass arrests and work camps. It is not a "crazy" proposition that Germany wanted a buffer zone between them. -------- US allied with Stalin. Fine. But don't try to make moral arguments about WWII. The decision to protect the Soviets was made because Germany was the enemy of those in power. It was not in the national interest.

"A Shtetl Neshama, A Jew from Yesterday" | In Conversation with Lea Kalisch --- Frieda Vizel --- 70K subscribers ----- 8,821 views - Oct 13, 2024 --- Members first on July 14, 2024 --- ;@LeaKalisch has a dream to sing at the Superbowl, in Yiddish, with a shtreimel. She is a singer of many genres, but some of her Yiddish songs reflect a longing for a simple, religious world. "I am a shtetel Neshama (soul), a Jew from yesterday. I should have been a fruma, my hashtag is 'oyvey'." We hear so many stories of people from the religious community longing for the secular world, what does it mean to grow up secular and express a longing for the religious world? For Lea, the answer is very complicated. She at once embodies a side that is a "rebbetzin" and a side that is wearing barely anything to perform. Her perspective is fresh, energetic, passionate, and unique. Please join us for a conversation about the story of Lea Kalisch.

# Mike Enoch - Sept. 21, 2024
Michael Isaac Peinovich (born 1977), commonly known by his pseudonym mike enoch, is an American neo-Nazi, anti-Semitic conspiracy theorist, blogger and podcast host. He founded the alt-right media network The Right Stuff and podcast The Daily Shoah. Through his work, Peinovich ridicules African Americans, Jews, and other minorities, advocates racial discrimination, and promotes conspiracy theories such as Holocaust denial and white genocide.Peinovich first drew media attention for his use of the "Sieg Heil" salute at a conference organized by Richard B. Spencer to celebrate Donald Trump's presidential election; in response to Spencer's cry of "hail Trump, hail our people, hail victory!," Peinovich led the audience in a series of Nazi salutes.

> watch?v=MaS6WMA45A4 == 40:12 == Narcissism in Freud and Lacan (primary and secondary forms) ---- Derek Hook ---- 7.82K subscribers --- 1,278 views Oct 12, 2024 ----- Freud uses the notion of narcissism to different types of conceptual work: 1) as a mode of designating homosexual object choice, 2) to designate a stage between auto-eroticism and object love, 3) so as to speak of libidinal investments (as in the 'see-saw' between ego-libido and object-libido). It is also used - as in Abraham's work - as a means of thinking about how, in psychosis, we see the return of libido that had previously been invested in the outside world; once this libido has been withdrawn back into the ego we have a type of secondary narcissism.
>
> In Freud's later work (around 1921) we have an opposition between a first objectless, narcissistic state' (characterized by the total absence of a relationship to the world), i.e. a primary narcissism, and type of secondary narcissism associated with the formation of the ego through identification with another person (as Laplanche & Pontalis (1973) tell us).
>
> Things are different for Lacan. In Seminar IV he notes that 'narcissistic tension' is to be found in 'a relation between a man and image'. The essential articulation at hand 'is the subject's fascination with the image... This is the last word on the theory of narcissism as such'. Jacques-Alain Miller will eventually proclaim: "[for Lacan] there is not a primary narcissism [in the sense of a total absence of relationship to the world]... the only conceivable narcissism is secondary narcissism, namely that which supposes the ego and its relation to the image" (in his commentary on Lacan's Family Complexes text).

AJ JACOBS: Anagrams played a part in a trial, sort of a witch trial in the 1600s in the --6:35-- UK. And it was a woman who was put on trial for claiming that she was a prophet. Part of her proof was that if you rearrange the letters in her name - her name was Eleanor Davies - if you rearrange it, then it says, â€˜Reveal, O Daniel', as in the prophet Daniel. I don't believe that that was proof she was a prophet. HZ: But supposedly Eleanor Davies did correctly foretell the deaths of the Archbishop of Canterbury, the Duke of Buckingham and King Charles I, and her own husband. These predictions made a lot of powerful people quite peeved with her, although so did her critiques of the church and the monarchy, in some seventy pamphlets she published during the last 27 years of her life, often illegally printed according to the law in England at the time; and these plus other acts of protest got her sent repeatedly to prison and Bedlam mental hospital. She used anagrams, so the powers that be used anagrams against her. AJ JACOBS: They came down on her hard in the trial, so they said, -If you rearrangeâ€? - her married name was Dame Eleanor Davies - -and you rearrange those letters, it spells â€˜Never So Mad A Lady;.â€? So like, -she's so crazy.â€? So that was how she was convicted. --7:52-- And by the way, that was when anagrams were easier, because there were so many spellings.

Lecture 2 of Emmanuel Levinas' Totality & Infinity - Key Terms, Mastery, and the Dimension of Height -- theory underground --- 13K subscribers ---- 194 views Premiered 7 hours ago -- One of the most beautiful, challenging, and profound works of philosophy. Totality and Infinity is a fundamental challenge to the history philosophy, history, and political thought. He is especially worth tarrying with if you are interested in Marx, Heidegger, or Derrida, much less influenced by Zizek or Land. David McKerracher has been studying Levinas for a long time and is far from an expert, but he has refined his ability to talk about this challenging work in a way that is more accessible and simultaneously in depth than anything else you will find on the internet.

This documentary explores the steadfastness of the Palestinian people in their struggle to survive and return

to their homeland Palestine. It documents the lives of Palestinians currently stranded in Al-Tanaf detention camp in no man's land between the Iraqi-Syrian borders. It explores the lives of Palestinians who first found refuge in Iraq following the Zionist occupation of Palestine and the expulsion of its people in 1948. Following the US invasion and occupation of Iraq in 2003, they have been forced to flee and find refuge elsewhere once again. This film gives voice to the suffering and heroism of Palestinian

As this wave of anti-boycott legislation has swept through the country, so has a counter-wave in defense of freedom of speech. The title, flashed on screen in multiple fonts and languages, prompts us to look up the reference: Dante wonders about the imprint of Christ on the Veil of Veronica "was your semblance made like unto this?". In this way, Kamal Aljafari declares the underlying theme of his disquieting, found-footage collage: do the heroic, suspenseful representations of armed warfare on screen, whether in documentary or fiction, bear any resemblance to the devastating, tragic, barbaric reality? The growing struggle for Palestinian self-determination between 1960 and 1980 was supported by radical left-wing movements worldwide, also in Japan. This is illustrated by a collection of 16mm films by militant filmmakers from various countries, which were dubbed and screened in Japan. Their Japanese audiences felt oppressed by the US after World War II, and not only sympathized but also identified with the Palestinians. Stylistically, the films vary widely. They includes interviews with PLO leaders, documentary impressions of life in refugee camps, experimental films, and instructional films for tourism pu

Painful truths about the Zionist rape of Palestine and deliberate planting of anti-Semitism in Iraqi Jewish communities during David Ben-Gurion's political career to persuade Iraqi Jews to immigrate to Israel.
July 26, 2017
by Naeim Giladi (Author)
Painful truths about the Zionist rape of Palestine and deliberate planting of anti-Semitism in Iraqi Jewish communities during David Ben-Gurion's political career to persuade Iraqi Jews to immigrate to Israel. The Zionists' goal was to import raw Jewish labor from the Middle East to farm the newly-vacated lands and fill the military ranks with conscripts, to defend the stolen lands.
---------- Newton Ooi / 4.0 out of 5 stars: Great subject, needs better editing / October 31, 2020 .... I read this book after reading about a dozen other books on Middle East history and US foreign policy over the past two centuries. Over these readings, I have learned that Zionism, along with Communism and Fascism, have been the three most powerful forces in world history over the past century. Whereas Communism and Fascism were reactions to the social changes wrought by the Industrial Revolution, the origins of Zionism reach back farther in time, and is really an outgrowth of British imperialism.

By the end of WWII, the horrors of the Holocaust had so scarred many of its survivors that Zionism became a be-all and end-all. So to help get the state of Israel on its feet, its founders did whatever was needed, including terror attacks on Jewish communities in other countries to get them to immigrate to Israel. This book is written by one such participant; an Iraqi Jew who lived through the experience of Israel's early conflicts with local Palestinians and neighboring Arabs. The author also participated in the smuggling of Iraqi Jews out of Iraq, through Iran and into Israel. And he knew Jews who participated in terror attacks in Arab countries as a way to scare local Jews to immigrate to Israel, and to pressure Arab and colonial governments to act in certain ways.

I highly recommend this book to anyone wanting to learn about the origins of Israel, and many of the conflicts of the current Middle East. The only fault I could find in the book was its poor editing, with typos, spelling, grammar and punctuation errors on every page. However, this is more due to the author not having English as their primary language, and trying to publish this book under pressure from the Israeli government.

> Sloterdijk's Spheres Part 6: Bubbles Chapter 4 on the Groundwork for a Negative Gynecology ---- Think Culture ----- 1.04K subscribers ---- 272 views Aug 3, 2022 ---- In this video I discuss the relatively short chapter called "The Retreat Within the Mother: Groundwork for a Negative Gynecology" in Peter Sloterdijk's Bubbles book from the Spheres trilogy--the gist of which is that the investigation into bipolar intimacies has reached a point beyond which is the traditional region of the mystics and the unsayable. A region that has been central in the history of metaphysics. He wants to develop a kind of hermeneutics of this region beyond subject-object metaphysics that enables us to communicate about them productively and derive insights from it.

seems to me he's projecting lacanianism onto PS rather than peeling me out his experience to subst, surr and antedote whatever keeps him from namabling me ... perhaps my own paternal name prohibition .. a selfimposed constraint that inhabits me or which crocks me up .. to this day .....

The herbicide glyphosate is expected to be innocuous to animals, including bees, because it targets an enzyme only found in plants and microorganisms.

please list and i'll tell you which one i heard and thought about you but for some reason can't recall [even tho it's no more than 1or2 days ago {1/2da}. could be drug or media flavor intake, i just don't remember specifics].

Also urgent: please situate your drugdeath perspective by adding the comparison with disappeared flu-deaths.
why did you drop that theme?
Oversight or intention?
Say no more or explain and please, again, do add it, if only to help brace for the shock altho on the deception value scale they are roughly equal and cumulative rather than one stealing thunder from the other i guess.

George Webb of Intrigue: Gaining perspective on George Webb, Dave Acton, and Crowdsource the Truth
CrimsonPillTV --- 744 subscribers ------ 2,886 views Jun 18, 2017 ---- Right now many YouTubers are wondering if their heads will explode -- the unfolding events of the past 10 days surrounding George Webb (Sweigert) and his brother Dave (Acton) Sweigert, along with Crowdsource the Truth's Jason Goodman, and an array of other YouTube channel hosts (Defango, HA Goodman, Lift the Veil, and many more) -- a situation that has seemingly devolved into open hostilities between many of them.

Any YouTubers who are in sincere pursuit of the truth about the real issues (DNC shenanigans & death of Seth Rich, corruption in the halls of power, â€˜pedogate,' many more) need to remain objective, be patient, and not get caught up in the intensity of the personal conflicts. This is a time to use your discernment to take in the raw data and weigh it on its own merits - refrain from 'taking up sides' until we can sort out the valid information from the bogus.

Your host apologizes for the meager quality of the audio and visuals - sitting on the sidelines for several years has generated some 'rust.' Be well YouTube!

Ron Paul ... and this is Ry:
When man had a sense of history and no delusions of immortality, he left his mark on the world so his descendents would benefit and ancestors be honored. Judaism is cancerous as it places greatness after death and in a different world. Mentality molds the masses esp in our long term thinking. I'd say life has value and preciousness because it isn't forever. The closest we can come is creating a family. That makes the union of man and woman truly holy. Attacking that rips at the fabric of reality and lasting purpose.
-------Nicaea perverted Christianity and took a noble force (true or not) and inverted its value system to one centered on obedience rather than virtue. It stings extra knowing how rebellious Jesus was. Not only to state but rabinical authority and their life hating toxic theology.

2014 [via yandex ... twitter erased the results it once offered or is not in the mood right now or something]

Like Squeezing Blood Out of a Zombie: New Directions in the Projection of Undeath ---- The German filmmaker Ulrike Ottinger has on three different occasions put the camera aside and directed for the theatre, each time another a play by Nobel Prize laureate Elfriede Jelinek. In 2010 they embarked on another kind of collaboration as Jelinek began contributing to the dialogues in the screenplay of Ottinger's film project Die BlutgrÃ¤fin (The Blood Countess). While the reasons for each artist to address undeath are as varied or polymorphous as the range and style of their oeuvres, a direct connection in Jelinek's case to her 1995 â€˜Gothic novel' The Children of the Dead (Die Kinder der Toten) is doubled by her own conviction, ever since its publication, that this work was her masterpiece, her posthumously-addressed legacy. And yet it was received by its first readership as a timely diagnostic encounter with the rise of right-wing politics in Austria.

The Psychotic Dr. Schreber - 2019

Â© 2019 Stalking Horse Press
Daniel Paul Schreber (1842-1911) came to prominence as one of history's most famous madmen in the wake of Sigmund Freud's -Psychoanalytic Notes Upon an Autobiographical Account of a Case of Paranoia.â€? Published in 1911, Freud's case study psychoanalyzes Schreber's Memoirs of My Nervous Illness, a detailed account of the German Judge's psychotic breakdowns in which he battled against numerous antagonists, including everything from God and the Devil to his own body and lexicon. Since then, Schreber's remarkable, uniquely lucid account has leaked from the psychiatric world into literary and popular culture. Postmodern theorists, for instance, have used him as a means to critique consumer-capitalism, explore the dynamics of modernity, and foretell the Nazi ascension, whereas filmmakers such as Alex Proyas have science fictionalized Schreber's experience, representing him as a product of technologized subjectivity and desire.

Schreberfiktion, an evolved SF ----- this is the subject of D. Harlan Wilson's case study, which is at once about, around and beyond Memoirs as well as the many secondary texts it has engendered. As the formerly make-believe aspects of the science fiction genre continue to materialize in the real world, Schreber's pathology becomes more and more relevant; his imagination and intellect, his anxiety and dread, his solipsism and megalomania point to the pathological unconscious that animates contemporary technological society. Thoroughly researched and transgressive, The Psychotic Dr. Schreber is part speculative (anti)fiction, part (auto)biography, part theatre-of-the-absurd, part writing tutorial, part literary nonsense and criticism. Wilson riffs on and satirizes post-everything, signaling the inevitable death of the reader and rebirth of the real. Science fiction explored the effects of the New in the Next, the Near and, in some cases, the Now. Galvanized by Schreber, this book maps the next stage: the New in the Never.
The Psychotic Dr. Schreber was a finalist for the 2019 Big Other Readers' Choice Award.
---------- **Reviews:** "D. Harlan Wilson writes and thinks like no one else, and he has produced one of the most important books in speculative fiction and literary critique in years." -- THREE CROWS MAGAZINE
---------"The Psychotic Dr. Schreber is a nearly indescribable blend of unsettling fiction, historical rumination, and cultural criticism. It's also an utterly

gripping literary work, one that takes bold risks and makes incredible use of an unconventional structure. In revisiting the life of a man best-known for Sigmund Freud's writing on his case, Wilson details the ways in which Schreber remains relevant todayâ€”and traces the way he's left his mark on everything from medical history to popular culture." -- VOL. 1 BROOKLYN
----------"The Psychotic Dr. Schreber is Ballardian bricolage par excellence, where juxtaposed fragments of theory, biography, and fiction, not to mention satire, finally cohere not only into an affecting portrait of a legendary 'madman' but into a kind of alarming diagnosis of writing, reading, and other 'illnesses.'" ----BIG OTHER
-------- "The world is full of shit. D Harlan Wilson is the purgative." ---MANCHESTER REVIEW OF BOOKS
----------"The memoirs of Daniel Paul Schreber's imploding/projecting ego heralded all of our POST disciplines and eras. The Psychotic Dr. Schreber is their phantasmagoria and last hurrah. What if every social media post were meaningful? Overstimulation unto breakdown! By ratcheting up the Schreber-Effect to throw a fit with our digital era, D. Harlan Wilson has at leastâ€”at last!â€”put the NEW (German pronunciation) into NEVER." -----LAURENCE A. RICKELS, author of Nazi Psychoanalysis, Germany: A Science Fiction and The Psycho Records
---------"Schreber is forever . . . This is a scintillating sexual and scatological fantasia on Schreber's immortal book, Great Thoughts of a Nervous Patient (the true title), and an uproarious parody on psychosis. Wilson cautions: 'The characters and events in this book are fictitious.' Freud warned: 'It remains for the future to decide whether there is more delusion in my theory that I should like to admit or whether there is more truth in Schreber's delusion than other people are as yet prepared to believe'â€”applicable to delusions of Schreber's interpreters too." ---HENRY ZVI LOTHANE, author of In Defense of Schreber: Soul Murder and Psychiatry
----------"Dementia as a way of being in narrativity and other, lesser modes of existence, duck-and-cover brilliant, dark energy all the way down, D. Harlan Wilson's The Psychotic Dr. Schreber is a magnificent switching station for all tomorrow's parties." ---LANCE OLSEN, author of Nietzsche's Kisses and Dreamlives of Debris
---------"Wilson plays with words in such humorous ways; the book is thoroughly entertaining. Reading it was like putting a puzzle together without the picture as a guide. Some parts were pretty, some were funny, some were delightfully confounding." ----POSTCARDS FROM A DYING WORLD
----------"Judge Schreber has sunbeams in his ass. A solar anus. And rest assured that it works: Judge Schreber feels something, produces something, and is capable of explaining the process theoretically. Something is produced: the effects of a machine, not mere metaphors." ----GILLES DELEUZE & FELIX GUATTARI, authors of Anti-Oedipus and A Thousand Plateaus --- D. Harlan Wilson

> Peter Thiel on the Triumph of the Counter-Elites --- The Free Press -- 201K subscribers ---- 266,243 views Nov 14, 2024 Honestly with Bari Weiss -- https://thefp.pub/3LY0YKB
> On Tuesday night, president-elect Donald Trump announced that the richest man in the world, Elon Musk, along with entrepreneur Vivek Ramaswamy will head a new initiative in the Trump administration: the Department of Government Efficiency, or -DOGE.â€?
>
> Aside from the very strange fact that internet meme culture has now landed in the White Houseâ€”Dogecoin is a memecoinâ€”more importantly, what the announcement solidifies is the triumph of the counter-elite. A bunch of oddball outsiders ran against an insular band of out-of-touch elites supported by every celebrity in Hollywoodâ€”and they won. And they are about to reshape not just the government but also the culture in ways we can't imagine.
> And there was one person I wanted to discuss it with. He is the vanguard of those antiestablishment counter-elites: Peter Thiel.
> On the surface, Thiel is someone who seems full of contradictions. He is a libertarian who has found common cause with nationalists and populists. He likes investing in companies that have the ability to become monopolies, and yet Trump's White House wants to break up Big Tech. He is a gay American immigrant, but he hates identity politics and the culture wars. He pays people to drop out of college, but, in this conversation at least, still seems to venerate the way that the Ivy Leagues are an indicator of intelligence.
> But perhaps that's the secret to his success: He's beholden to no tribe but himself, no ideology but his own.
> Today: Thiel explains why so many of his peers have finally come around to Trump; why he thinks Kamalaâ€”and liberalism more broadlyâ€”lost the election; and why the Trump 2.0 team will be better than last time, with antiestablishment figures who are willing to rethink the system. We talk about the border, trade deals, student debt, Israel and foreign policy, the rise of historical revisionism, the blurry line between skepticism and conspiracy, and his contrarian ideas about what we might face in a dreaded World War III.

@Davidbirdman101 --- 3 days ago: Look, I'm just an old retired carpenter. But I have lived in the south all my life. I'm not college educated, but I can build a house. I was born in 1957 and I was named after Eisenhower. That got me interested in the man. That's when I found out about the military industrial complex. Now, I have to admit I thought it was tin foil hat wearing kinda stuff. I didn't understand what the military industrial complex was. But now I know exactly what it is. Here's the deal with me, I'm afraid, I'm very afraid. Not for me, because I've lived my life. But I have a son who is 32 years old and I love that kid with all my heart. I would die for him.
I don't care about people being gay or whatever they want to be. I'm an old hippie kinda guy. I used to think everything should be free. You know, drugs, sex and rock and roll. Then I had to wake up and go to work. I had to raise my son and pay taxes. That's when I turned conservative. I saw my tax dollars being thrown in the toilet. I saw politicians getting filthy rich doing nothing. I saw America going into these wars and then betraying the people we said we would protect. Like, Afghanistan, Iraq, Viet Nam. Now we're blundering around in Ukraine and facing a nuclear holocaust.
I don't hate anyone but there are some politicians I can hardly stomach. I'm sorry, I'm ranting I know. But like I said, I'm very worried about this war thing and I hope Trump can stop this madness. That's my position for whatever it's worth.

grafting grifterdrifter hippiedom onto conservatism give 'grippie' which i am but a faint foreshadowing of ... breadcrumbed while supplies last ..

Across the US, students and faculty are continuing to resist repressive measures by university administrations intended to stifle or even criminalize speech in support of Palestinian rights, as the genocide in Gaza continues. Along with elite US institutions calling riot cops on their own students who have been holding sit-in protests, or attempting to prevent students from holding protests altogether, some universities have tried to categorize the political ideology of Zionism as a protected identity class in order to define anti-Zionist speech as racist hate speech. Maura Finkelstein told The Electronic Intifada

Podcast:

I understand why some professors are scared to speak up in defense of Palestine and potentially lose their jobs. But they should not self-censor. We all need to be talking about Palestine. We all need to be teaching about Palestine because, in an ideal world, they can't fire us all.

Joshua Moon may not have carried out his thread to commit wholescale murder, however one member of his evil little forum most certainly did only a few months back â€“ William Atchison, known as Fuck You on Kiwi Farms (interestingly he was also on Blockland under the alias Sephiroth) and from the positive feedback he'd been receiving on the forum a popular member for his posts before his abrupt death in a failed planned attempted mass shooting (he killed two before committing suicide as the police stormed the building). Contrary to his listing as being 36, Atchison was only 21 at the time of his death.
The press pointed to his involvement in white supremacist sites (some of which ironically are targets for abuse by Kiwi Farm members), but amazingly none pointed to his possible desensitisation towards having any sympathy for his fellow human beings via a certain hobby troll forum â€“ who of course marked his passing in the above atypical fashion.
This is not the only known instance where the members were responsible for innocent outsiders losing their lives.

ANC Report: He is right about Fuentes but @DanBilzerian and @jakeshieldsajj are not part of some planned controlled opposition, they're just being sincere. Of course Zionism and Judaism are not the same thing. But one can dispute with a religion for reasons completely independent from politics. I could disagree or agree with Iran politically and then agree or disagree with Islam independently. Likewise I could and do disagree with Israel politically and I can agree or disagree with Judaism religiously too but not as a reaction to Zionism. As an atheist, I already reject all religious claims as preposterous especially the ones where God is a real estate agent. Anti-Zionist Jews and I can agree on Palestine and disagree on theology. Without massive mental gymnastics, Judaism is straight up disgusting in addition to just being stupid bronze age mythology. There are versions of it that are tolerable but it's still make believe.

Now that said it doesn't make me hate Jews as an ethnic group. Most of my friends outside of Asia, have one religion or another and I don't care. Supernatural beliefs are common. But I think ignoring any link at all between Judaism the religion, and Zionism a belief of ethnic supremacy is sticking your head in the sand. The entire concept of Jews being a common bloodline and there existing a holy land IS from that religion. And many Christians support it too bc they think it's God's instructions.

Again people have honest re-interpretations of scripture that make it sound less insane. But it's a "no true Scotsman" fallacy to pretend like none of the assanine ideas count because only your version of religion is the real one. There would not even categories of Jew and Gentile without that faith. It's a self-alienating religion by constructing an us-and-them world view. Also to the haters, I have zero qualms telling the largest influencers to go fuck themselves if I think they are in the wrong. As anyone who knows me knows. I don't think Jake and Dan are anti-semetic, I know Fuentes is.

I understand the frustration of handing the mic to someone that comparably just learned this stuff rather than having people on shows who've been at this subject for decades. But what do you want them to do? Say no I won't go on a show? Kids are being burned alive. If they can speak out against it, they will. It doesn't matter if so and so would have done better.

Unrealistic. They're brought on not because they're noobs. It's because they have huge followings and or wealth. Shows are businesses and they want eyeballs above all else. Sure I'd love to see Grant F Smith or @mikopeled or @MaxBlumenthal or @DrHananAshrawi on these shows. Or a Larry Wilkerson. And we did see @normfinkelstein so it is possible. But don't start accusing people who woke up late to the plight of

Palestine of being covert well poisiners. PBD is a rat I agree. @PiersUncensored is a bit more balanced. I think he's wrong on everything, but I think he would be open to allowing a real dissection of Zionism from academics if pressured. --- 1.5K views ANC Report

Dmitri Safronov
Nietzsche Studien 51 (1):1-32 (2022) Copy BIBTEX
Abstract
Having started with a harsh critique of the -contemptible money economy- (UM III, SE 4), Nietzsche subsequently travelled back in time in order to discern the origins of its values and to formulate goals that would -transcend money and money-making- (UM III, SE 6). Having traced the -greed of the moneymaker- back to the ressentiment of the -ascetic priest- (GM III 10â€“5), Nietzsche's genealogical inquiry culminated in his discussion of the slave revolt in morality. A particular feature per-taining respectively to the domains of material debts and moral guilt was their reli-ance on an enduring revaluation of values. The manner in which Nietzsche connects the moneymaker's world of material debts to the priest's domain of the slave morality reveals a number of striking structural parallels to Plato's, and to some extent Aris to-tle's, discussion of the uneasy accommodation between democracy and moneymak-ing. Highlighting and exploring these similarities, which remain largely overlooked in the current scholarship, adds to our understanding of Nietzsche's undertaking.

LAST PAGE:
Lacking in modera- tion, these -occupants of the offices,- who are -lovers of money and engaged in mon- ey-making-, are neither capable of fiscal prudence, nor of supplying aspirational values to the members of the polis. Instead, they encour- age excess and -wasting of substance,- whilst -their object is, by lending money, to become still richer- and to augment their power. Deterioration in the standard of the -cupbearers- of democracy (R:553[câ€“d]) has the effect of lowering the overall quality of the polis and of its individual members. This weakening of the social fabric inaugurates the self-reinforcing dynamic of political decline, creating -rulers who resemble subjects and subjects, who are like rulers-. The latter only amplifies the power of the moneymakers and emboldens the would-be tyrants. This leads Plato to conclude that -the probable outcome of too much freedom is only too much slavery in the individual and the state-. The manner of democracy's eventual disintegration into tyranny, as outlined by Plato and Aristotle, bears resemblance to the trajectory of Christianity's decom- position into the -turmoil of secularization,- which follows the death of God. As Nietzsche tells us in the UnzeitgemÃ¤sse Betrachtungen, just as -the waters of religion ebb away,- society gets -swept along by a hugely contemptible money economy- which, by indulging the -self-seeking drives of the soul,- enables -the money-makers and the military despots- not only to rise to the top but to establish their authority in quite an extraordinary manner, i. e., by -holding sway over almost everything on earth- One further overlooked aspect, which links Nietzsche's argu- ment with that of Plato and Aristotle, is that it is not democracy in of itself that degen- erates into tyranny. Rather, Nietzsche tells us, this happens when the -involuntary arrangement- between democracy and the money economy, based on promoting -slavery in the subtlest sense,- breaks down and, having failed to produce a worthy antithesis to the -to the leveling and mediocritization of man- the -dis-honest lie of the â€˜moral world order', stemming from its steadfast refusal to see -how reality is constituted fundamentally,- becomes exposed as its sole foundation.

This is why Nietzsche would ultimately concur with Plato and Aristotle that: -Material prosperity, the comfort that satisfies the senses, is now desired, and all the world wants it above all else. Consequently, it will meet a spiritual slavery that never before existed-. The -conditions of existence,- which embody and reflect these values, make it neigh impossible for the great individuals to emerge and to make a difference, whilst -those who climb to the top of society today are physiologically condemned- In this respect, Nietzsche notes that -the degen- eration of the rulers has created the greatest madness in history- which has paved the way for the proliferation of meaningless and wasteful slavery in all social classes and every sphere of life. This, Nietzsche argues, demonstrates that slave-morality is not only a potent economic force, but that it is also -the greatest danger- (GM I 12) as it all but confirms each of us, moderns, as -the last men, and the slaves- (EH, Destiny 5). Viewed in this manner, liberalism (of the moneymaker) and democracy (of the masses) are not simply the secular offspring of Christianity. They become, for Nietzsche, the cornerstones of the secular slave morality, which insists -it is part of its development that its origin should be forgotten- ----------
Concluding Remarks A number of palpable similarities can be shown to exist between Nietzsche's ascetic priests and Plato's, as well as Aristotle's, moneymakers, all of whom reinforce the same reactive -moral world order,- albeit by different means. Plato's, Aristotle's and Nietzsche's manner of reflecting on these phenomena also exhibits compelling struc- tural parallels. This is particularly the case in relation to the mechanics of the slave revolt in morality and the moneymakers' ascent in democracy, orchestrated through the pervasive

revaluation of values, which empowers the greedy power thirst of the priest and of the moneymaker, and relies on a thorough psychological rewiring of the physiologically incomplete multitude, as well as causing erosion in the quality of the leaders. The priest and the moneymaker use similar modalities of incorporation and moulding of subjectivity, i. e., they employ similar mechanisms for (a) maintaining their power and (b) concealing its harmful effects (GM I 6). In this manner, Plato's, Aristotle's and Nietzsche's respective discourses shine an uncomfortable, yet pertinent, critical light on the origins of liberty and equality as well as on the entan- glement of democracy with moneymaking which may end up producing -the fiercest extremes of servitude- from -the height of liberty-.

Nietzsche on Transcending Money -- Dmitri G. Safronov In Joseph J. Tinguely (ed.), The Palgrave Handbook of Philosophy and Money: Volume 2: Modern Thought. Palgrave-Macmillan. pp. 367-392 (2024) Copy BIBTEX
Abstract
Nietzsche's trenchant critique of modernity culminates in the famous call for the -revaluation of all values.- Early on in his work Nietzsche urges us to -set goals beyond gold and gain.- Exploring the subject of money within Nietzsche's oeuvre reveals that his revaluational project and his passionate plea to -formulate goals- that would -transcend money and money-making- are by no means discrete undertakings. Quite the opposite, Nietzsche's revaluation grows out of his stated objective to transcend the value horizons demarcated by money, which represents the archetypal value of secular modernity. In his assessment, money's rise to prominence in the wake of God's death exposes society's declining health and conceals money's ouroboric rondure. Nietzsche's prescient examination of money's psychology relies on the same method of genealogical scrutiny he applies to the critique of slave morality. It contains several messages which ring with pertinence in today's world.
---------QUOTE: After all, our entire civilized world is only a great masquerade. Here one encounters knights, preachers, soldiers, doctors, lawyers, priests, philosophers and who knows what else! But they are not what they represent; they are mere masks under which, as a rule, money speculators (money-makers) are hiding. â€”Schopenhauer, Parerga and Paralipomena.

Nietzsche's Political Economy
De Gruyter. 2023.
Safronov's Nietzsche's Political Economy is a pioneering appraisal of Nietzsche's critique of industrial culture and its unfolding crisis. The author contends that Nietzsche remains unique in conceptualizing the upheavals of modern political economy in terms of the crisis of its governing values. Nietzsche scrutinises the norms which, not only preside over the unfathomable build-up in debt, the proliferation of meaningless, impersonal slavery and the rise of increasingly repressive social control systems, but inevitably set these precarious tendencies of modern political economy on a collision course liable to culminate in an unprecedented human and environmental catastrophe. Safronov explores the core themes of Nietzsche's political economy -debt, slavery, and the division of labour- with reference to the influential views of Adam Smith and Karl Marx, as well as against the backdrop of the Long Depression (1873-1896), the first truly international crisis of industrial capitalism, during which most of Nietzsche's work was completed. In Nietzsche's assessment, modern political economy is predicated on the valuations that diminish humankind's prospects and harm the planet's future by consistently enfeebling the present, as long as there is profit to be made from it. Nietzsche's critical insight, which challenges the most fundamental tenet of modern economics and finance, is that in order to build a stronger and intrinsically more valuable future in lieu of simply speculating on it, as though the liberal Promised Land could descend upon us like the manna from heaven at the wave of an invisible hand [of the market], it is necessary to walk from the future we dare to envisage resolutely back to the present we inhabit to determine what demands achieving such a vision would impose upon us, instead of embellishing the â€˜here and now' by cynically discounting the future to the [net] value of the present while disparaging, disowning and rewriting the past to unburden ourselves of its troubling legacy, as we continue to frivolously squander its capital to the alluring tunes of the â€˜sirens who in the marketplace sing to us of the future'. The enabling mechanism for changing our valuing perspectives, Nietzsche tells us, lies dormant in us and it must be unlocked before it is too late.

Of Last Men and the Ends of History: Nietzsche contra Fukuyama --- In Martin A. Ruehl & Corinna Schubert (eds.), Nietzsches Perspektiven des Politischen, De Gruyter. pp. 355-368. 2022. ---Nietzsche is a silent interlocutor in Francis Fukuyama's polemic The End of History and the Last Man (1992). But Fukuyama, I argue, ignores the rationale behind Nietzsche's critique of the liberal worldview and misinterprets his call for the revaluation of all values. By exploring the relations between the end of history, the last man and the need for revaluation, this chapter aims to reconstruct the relevant aspects of Nietzsche's critique of liberalism, which challenges the political vision of The End of History. I contend that Nietzsche's exposure of the conceptual and value inversions as central yet perilous sources of legitimacy in modern â€˜industrial civilization' continues to resonate today and deserves critical

attention.

On the Genealogy of the Eternal Return
Vestnik 78 (4): 3-24. 2021.
Guided to the notion of the eternal return by the philosophical intuitions of the Greek antiquity, Nietzsche turned to the physical sciences of his day in order to further his inquiry. This extensive intellectual engagement represented a genuine attempt to investigate the possible continuity of meaning between the mythical tradition, on the one hand, and the rational-empirical (i.e. scientific), on the other. In particular, Nietzsche was intrigued by the manner in which the relationship between myth and science played out in the wide-ranging debates on the eternal recurrence and entropy. Obscuring the view, however, lay the debris of metaphysical imports into the discourse of secular modern science. In the course of his ambitious undertaking to disentangle physics from metaphysics, Nietzsche discerned a possibility for synthesising the scientific explanation for his 'fundamental conception' (EH: Z, Â§1) with the mythical wisdom of the ages. His inferences proved nothing short of explosive. The doctrine of the eternal return of the same, instead of the docile cosmic torpor, urged the radical revaluation of all values. The measure of the eternal return's power was to dissolve its impersonation 'the Ãœbermensch'into a form of well-being. Nietzsche was convinced that his â€˜mightiest idea' (NF-1881:11[148]) illuminated the path we must follow lest we wish to incur the full force of the 'frightening wisdom of Silenus' (BT: Â§4).

your animal argument near the end is a clever (but easeethro away) strategy to try escape being observed/judged as invasive species.
You do the same thing with spaces and races; common good rules don't but owner supremacies DO apply (earth is tradable and that's in the word of god so that's that, end of discussion, [we] let the blessed guns blaze if you can't even feign submission and sponsor our security industry with a cat and mouse hunt instead, either way .. and set your soul to a split career off to a good start. September 25, 2021 -- Andy Sloan says:
â€œWhen Rabbi Berl Lazar was recently invited on a historic visit to the Siberian city of Tomsk, the planners left a window open for his meeting with the district governor. â€œThe mayor supports the Jewish community, but we have quite a few problems with the governor. Therefore, it was important for me to meet with him as well,â€? the rabbi later explained. But the day before the planned meeting, the governor received a message: Urgent meetings were scheduled for him in Moscow â€“ so thank you, but maybe another time. A few days later, when Rabbi Lazar himself returned to the Russian capital, a sudden phone call arrived: â€œIs the rabbi available in the next few hours? The governor is in Moscow and would be very happy to meet with him.â€? ---- Rabbi Lazar smiles as he sums up the story: â€œWell, you do not think it happened by chance?â€? We do not. When the governor arrived in Moscow, he apparently met with the higher echelons of the Russian administration, and soon realized that Rabbi Lazar was one of the people CLOSEST TO Vladimir Putin. No one in Russia has the privilege of saying â€œnoâ€? to someone who has been crowned Russiaâ€™s chief rabbi by the
president himself.â€?

THE ZIONIST FACTOR A Study of the Jewish Presence in 20th Century History ------ Ivor Benson ------ Veritas Publishing Company Pty. Ltd. Australia, 1986
CHAPTER 1: Shakespeare and the Law of Equity
Raphael Holinshed's History of England, a source from which
Shakespeare drew copiously in the writing of his major English historical plays,...
Sir Thomas Wilson's Discourse Upon Usury....

Victor Hugo makes this comment on Skylock's motivation:
"In entering his synagogue, Shylock entrusts his hatred to the safeguard of his faith. Henceforward his vengeance asumes a consecrated character. His bloodthirstiness against the Christian becomes sacerdotal".

The legal structure of The Merchant of Venice is fallacious, as Moelwyn Merchant points out, since no system of law would permit a man to put his own life in jeopardy as one of the conditions of a contract; in other words, the legal framework of the drama is no more real than so much stage furniture and painted scenery.
page 15:
The only explanation Professor Cohn can find is that the people of the West have been afflicted down the centuries with a form of insanity he calls "a paranoiac schizophrenia", from which other peoples are, presumably, immune.
There is a far simpler explanation: These other peoples did not have an open competitive environment nor did they have an exuberant economic environment in which the poison vine of usury could take root and extend its tentacles without restraint.

We could hardly better conclude this introductory chapter than by drawing on the wisdom of one of the most famous and revered of Jewish savants, Asher Ginsburg, better known by his pen-name Ahad ha-Am, of whom the Jewish historian Richard.H. Gottheil wrote in his book Zionism:
Ahad ha-Am is a student of philosophy, and his historical ken has a philosophic depth entirely wanting in his predecessors. In addition, he is in perfect sympathy with the people for whose ills he is seeking a solution, and the causes of whose ills he proposes to study. In his own soul he has felt all that his people has suffered; yet he has sufficient detachment to study its ills with a severity that does honour to his acumen, as his feeling does to his character. (Richard.H. Gottheil, Zionism, Jewish Pulication Society of America, 1914).

Ahad ha-Am's explanation of the hardships experienced by theJews down the centuries, therefore, also of the troubled relations of Jew and gentile, differs in no way from that which forms the underlying theme of this book. Here is the opening paragraph of Ahad ha-Am's book The Way of Life in which emphasis is given to the spiritual requirements of human nature, in contrast with the material and political:

The vicissitudes of Israel throughout the Dispersion, but particularly during these latter days of ours, make it plain that we Jews cannot hope to lead the life of a separate nation among strange peoples, and yet be as one of them, taking part in all the activities about us as though we were full-blooded natives of the lands of our sojourn, and at the same time remain a nation peculiar in views and distinct in character.
Misfortunes maim our manhood, favourable circumstances
our national spirit. The former make of us men despicable in the eyes of our fellows, the latter a nation despicable in our own sight. . .

Asher Ginsburg (Aha ha-Am) could see no future for the Jews as a nation except as "exemplars of righteousness", a role only possible in "a house for themselves only", where they could "develop along their own lines as one of the social units of mankind". He could see only one place where this might be possible, "the land of our forefathers" - that land in which the Jews have exhibited themselves since the end of World War II, more so perhaps than anywhere else in the world, as exemplars of cruelty and iniquity rather than of righteousness, as many Jews today frankly admit.

Ashley Frawley --- How Eugenics Survived the Nazis
April 30, 2024 ----- In 1930, the Nazi psychiatrist Ernst RÃ¼din called for the extension of medical killing to â€œprevent a crisis in social care.â€? At that point, he assured his audience, â€œI personally should not care to consider any coercive measuresâ€?â€”only counselling to encourage sterilizations of those deemed â€œunfitâ€? and beyond medical help. But RÃ¼din would later go on to oversee not only sterilizations, but also the mass killing of psychiatric patients under the Nazi regime.

OK, I lied. The first statement I quoted, about expanding euthanasia to â€œprevent a crisis in social care,â€? was made not by RÃ¼din in 1930â€”but by the president of Belgiumâ€™s largest health-insurance fund a few weeks ago. Comparing todayâ€™s push for â€œassisted dyingâ€? to Nazi eugenics may seem like another shallow reductio ad Hitlerum. But the value of the comparison isnâ€™t to claim we are on a slippery slope to the full suite of Nazi horrors. The question, rather, is why we are seeing the soft return of outlooks and policies that led to such monstrous results in the 20th century. What their reemergence shows is that we never overcame the contradictions to which the Nazis were responding in the most brutal imaginable way. Because we are still living in the same modern world, riven by the same contradictions, the horrifying solutions proffered by the Third Reich havenâ€™t truly gone away.

> â€œHe who says organization says oligarchy." With these words, Robert Michels advances his sociological theory of what is called the iron law of oligarchy. Whenever human beings arrange themselves into a social group, the structural realities of organizing human beings for coordinated action result in minority rule. Far from asserting this as a reality that we have overcome with democracy, this pattern obtains just as strongly in democratic structures of power as in others. Robert Michels lived from 1876 to 1936, wrote several books, and taught sociology and economics at university - including at Basel, where Nietzsche also taught. Michels' arguments are particularly compelling because he began his political career as a socialist and worked within the socialist parties in Germany to advocate for economic reform. However, he soon began to perceive that the structure of the party itself had created another oligarchy within it, and that the leaders of the party seemed to naturally drift from the interests and perspectives of the workers at large. While we might expect such dynamics within monarchist or conservative parties, it was the revelation of this tendency within the leftist parties that disturbed Michels and compelled him to change his approach to politics. If even the avowedly socialistic and revolutionary political parties were destined to become oligarchic in their structure, then this surely points to something inherent to the human social structure that inevitably produces oligarchic rule. Today we're diving into his work, Political Parties, and exploring whether there is good evidence for the iron law of oligarchy.

From yesterday in Bucharest, Romania, where we planted an olive tree to commemorate â€œPalestinian Land Dayâ€? after our government declared their friendship with the Ziostate. The people are standing with the right side of history, we donâ€™t care about our corrupt politicians!

28th of feb '77 article on a priest ..
if you're gonna make an ass of yourself, do it at the end of your mostly good vids Mark.
If anything could have kept me on 'conviczion of being a 'prince of ziopeace#1' material' course#2, it would have been havin someone around for only a few lifechanging moments to save me ... FROM MYSELF!!! i trust you know enuff of my 2020 trigger event to 'superfluidate' now.

#1 = bein a mutt/ hybrid/ assimilee/ dilute [hi potency] ME/Nordic mixbreed on a transplural multipolar node of bloodlines ..

# .. altho i already had serious doubts about explainin damn near free, clean and easy energy generation principles on account of a growing awareness they'd immediately be put to bad uses.

i still feel like a mix between easy, mere fingerindyke inundation preventzion pawn and at the other end of the spectrum, THE failed last ditch change keyfigure this era had to keep the lid of PandoraBoxlike

challenges down securely [the contraMessiah] but the latter perspective suffered, .. i mean gained, precipitous preponderance since the day i began livin a lie threatening my life half a year later
---1 [i pretended a grave and offensive, sly and most sneaky assault wasn't hapnin, .... all accordin to plan, don't be paranoid, steady as she goes], cause all the horrors of the world were to be 'noted' and pointed out by liddul old if not impartial, certainly optin out me, instead of comin and goin for my very vitals at the hands of my very neighbours!!!

Instead, they came and went for my very vitals ..at the hands of my very neighbours. The switcherood my 'pawn script' i guess.

rescue thing comes up again 37th minute ...

so the insidious ['incisious'] genemonger snuck in on the strength / in the slipstream of syncreticosmic [cosmic = cosmetic, so quite the opposite and beauty oriented] tendencies? Parralels abound.
Blazin vid, .. .thanx Mark.

> Representationalism in Nietzscheâ€™s Early Physics: Cosmology and Sensation in the Zeitatomenlehre -------- Joshua Rayman ---From the journal Nietzsche-Studien
> https://doi.org/10.1515/nietzstu-2018-0007
> Abstract -------- Nietzscheâ€™s 1873 fragment, the Zeitatomenlehre, posits a temporal conception of action at a distance where space is reduced to a single point and time consists only in a series of discrete atoms. Taken as a physical doctrine that destroys all spatial difference, this conception raises serious conflicts with the rest of his work. I describe and situate this theory within the historical context of debates over action at a distance in nineteenth-century physics, distinguish it from physical theories influential on Nietzsche, and argue that these conflicts can be resolved only by viewing it in the anti-metaphysical phenomenalist and representational terms that he also expressed in his early work. ---------- Keywords: Action at a Distance; Boscovich; Time; Space; Physics -- 2018-11-08

First off The school book crap of oh Serbia shot an Austrian royal and then all these huge alliance just all went to war and it was a stalemate until usa saved the day is total oversimplification
Austria-Hungary had already taken Bosnia and Herzegovina from the Ottoman empire in 1908... on Oct 7th.
They got Russia to accept this by Austria offering to allow Russia warships through the Bosporus and Dardanelles straits. (They'd been blocked since 1841)
The Ottoman Empire had internal rebellion by the Young Turks who set up a constitution in July of that same year 1908. Bulgaria immediately declared independence.
You see before all of that Bulgetia Romania and Serbia joined the Russian side against the Ottomans in 1877-1878 Russo-Turk War.
To know WWI You need to know

Crimean War 1853-1856 ------ The 1857 rebellion ------ Russo-Turkish War 1877-1878 ------ Russo-Japan War 1905 ------ The Young Turks 1908 ------ The Bosnia Crisis ------ The Treaty of Berlin 1909 ------ Then you need to know the allied powers side of things of Britain France and Russia at a minimal. A year after the Crimean War Britain faced the 1857 in India leading to the 1908 annexation, Russia had just lost a war over port arthor to Japan. 1905. This is also when Japan would annex Korea. Part of why Russia lost that war was because the treaty with Turkey wouldn't allow their Black Sea fleet to move. This is actually why they sided with Romania Bulgaria and Serbia before (tho it failed) to gain black sea control. And why they allowed and accepted the Austrian annexation in exchange to sea travel. So you need to know about the Russo-Japanese 1904-1905

So much happened between 1853 to 1914

Right in the middle was the US Civil War out of which came the first rail guns, repeat revolvers, submarines, etc. The disrupted cotton trade resulted in new powers by Turkey and Egypt. A key component for artillery ammo is made of nitrates from cotton pulp. Do you see how messy it is starting to get? Also at this time was a France-Mexico War.
This is why I don't get inti WWI so much. Youre asking me to explain 60 years of global history
We do not have wars because to get the oil.

Zionism is way older than Theodore Hertzl. Jewish supremacy is as old as Judaism. Yehuda Alkalai didn't pull that out of the blue nor did Rabbi Hirsch Kalischer. These men carried on the God is a Real Estate Agent myth that has presisted since ancient times. Hertzl simply had some success. There's always been a cult bc Judaism is an intrinsically racist religion. But just as Christians no longer support monarchies, many modern Jews do not retain bronze age barbarism as a moral guide. Religions evolve. Unfortunately Israeli Jews in every position of power there like ISIS are fundamentalist genocidal maniacs. --- 706 views

These men stood in the way
Not because "individuals" make history but because human groups organize for action in such a way as to stream powers to leadership for actualizing and wielding those powers intelligently. Masses must have heroic leaders. Much goes into their creation
---------- @camhopps: I don't understand why you support Assad but not Putin, critically for the same reasons. They're both liberal "strongmen" stabilizing regions that the US is otherwise targeting for balkanization.
----------RK: Thank you for this perfect little log line dogma from the digital prosthetic mind. I'm answering here at legnth http://redkahina.substack.com in a few hours. Going to have a neologism for this by then.
Absolutely perfect. Of course im not in a position to give any meaningful support to either. The creation of an abstract Type to stan or not stan serves to evacuate the concrete global class war and preempt all consciousness of human affairs. 'Liberal' is floating for evasion 'Strongman' propaganda archetype to hedge and help volatilize 'Liberal'
The list of figures from which to pretend to derive these vague traits for the type implied includes I suppose a great diversity. The Type itself emerges from 'IR' template of board-to-video game pseudoworlds. In the simplest terms you created an abstract Type of Individual Player to erase the chief fact the imperial rc is exterminating Palestinians: Putin leads forces of the perpetrator class; Assad wa/is an heroic leader of the Resistance arming & sustaining the Palestinian people. This is apart from the issue of the Type Profile not fitting and in any case being deliberately vague  for the purpose of alibis and disavowals, and a weakly bit necessarily implied pseudo history of the Donbass reds
----------cam: I'm not comfortable with the labels "liberal" or "strongman" either, hence the quotation marks. It's just for the sake of simplification for the tweet format. But how else to communicate that both are unscientific socialists, using military might to stop Western imperialism?
Putin is on the side of the RC? Not so. This is just a poor understanding of Putin's rise to power, which balanced the oligarchs with public interest. Wasn't it the Ukro-oligarchs and Western imperialists who marked Russian-speakers in the Ukraine for extermination?
----------RK: This is laughable bs Russia is very close to isrsel and they just eliminatrd the Resistance 's primary and indispensible resource by a coup. They just destroyed them. Before that they assassinated all the leaders of the Donbass republics' reds and destroyed that resistance. Before that Putin was the point man traitor in the subversion and destruction of the USSR.
\----------cam: Come on now. There's no evidence for this. He holds the common sense view of Russians that the USSR was a tragic but inevitable loss. Just bc he's not fanatically communist doesn't mean he's behind the USSR's destruction-spoiler: the traitors became the oligarchs!
---------- @VZubakh: He is an oligarch. No evidence? What about his SELLING the country? What about his DOCUMENTED terrorist attacks he orchestrated? What about his quoting Nazis in his speeches and opening institutes bearing their name? What about 'decommunization'? What about Chechnya?
----- RK: It's  pretending to be nat committee of @communistsusa to embarass them.
---------- cam: No, I'm not. You can respect democratic centralism while retaining your own views. As long as you are upfront about it.
--------- RK: The website said you shouldn't be represent yourself as speaking for the party when you troll, glorify violence, and attack the party's positions
----------cam -- @camhopps: Bolshevism was preceded by an era of Narodnik, anarchistic assassinations and terror. This is a fledgling class consciousness; workers are beginning to fight the capitalist, just not yet with scientific means. Every Marxist should celebrate this acceleration of affairs. ..... 5dl: Yet I've never said I'm speaking for the party, I've emphasized I'm an individual multiple times. Concern trolling about the UHC assassin posts is very "pearl-clutching bourgeoisie" for a communist.
----------RK: Well everyone is an individual but you said your opinions were given weight by being not subjective personal opinions but those of what you amusingly called the vanguard party of world communist movement namely @communistsusa
---------- cam: I said I am a Communist according to the historical criterion of belonging to a Communist party and actually trying to objectify my beliefs in the real world. You are not doing any such thing, in the course of which you might find you have to compromise with the real world...

----------RK: You forgot to answer
1. what are these mysterious beliefs of yours
2. How does belonging to @communistsusa
objectify them in the real world
----------cam: I am committed to Communism and Marxism, which belonging to a Party objectifies since it's the input into the democratic centralist process that results in an objective output of united action.
----------RK: You've said you reject Communism as CPUSA always defined it. That you have a new amoral post-humanist notion of it which rejects what 20th c. Communists Lenin Stalin Mao Fidel Habash Hoxha Mozgovoy fought for & may involve enslaving/exterminating masses for a Greater Good.
----------cam: you think any of those men you listed were liberal humanists? Moral philanthropists? - If we were always cowed by complaints of acting too harsh, too dictatorial, too ruthless, we wouldn't have gotten any of the great accomplishments of the 20th c. History is history of bloodshed

----------REPLY:
Youve denounced 20th Communists and Communism in toto you repudiated it and them, did you forget ?
----------Cam
No I haven't. What I HAVE repudiated is opportunistically instrumentalizing the sentimental nostalgia Communists have for this era, in service of sitting on your hands and "both-sidesing" in the 21st century. Your position has no skin in the game
----------RK:
Well you have to lie even about what you said yesterday because you don't have anything meaningful and valid to say for yourself. Your sole accomplishment you sau is maybe you got the cpusa a dem party sect to give you a membership card. What good is that to the working class
----------CAM:
I haven't lied about anything. The 20th C is an inspiration but not a blueprint. News flash, but it failed, and we're literally living in a different century now.
----------RK:

chinahand @chinahand -- Aug 5, 2018
I think PRC vaccine scare campaign is a limited-hangout "CCP cares about you" reveal,

complicated by the Western "OMG red monsters cant protect their people" coverage. But using vaccine problems as a vehicle for engagement w/ Gates is an interesting & subtle point https://bloomberg.com/news/articles/2018-01-25/gates-foundation-works-with-china-drug-agency-to-raise-standards
& not beyond PRC now as it tries to counterprogram against US rollback campaign â€œRaising standardsâ€? means deregulating as required by Western Pharma.
---------- 2de: China is collaborating with Western Big Pharma to destroy the regulatory framework that was created to ensure safety and control FDI. This has been demanded by US/European partners. https://mckinsey.com/industries/pharmaceuticals-and-medical-products/our-insights/whats-next-for-pharma-innovation-in-china

But there is no distinction between the culprits in China and in the US: the whole thing is this is a US imperial operation against the Chinese people. The aggressors here are Big Pharma not the CHinese manufacturers that are being destroyed by the CPC in order to faciliate Gates ---- Aug 6, 2018 --- imperial monopoly. What's happening is the lead clique of capital, these very advanced fascist capitalists, are disciplining their own class worldwide and eliminating democracy and throwing a web of centralized control over the whole planet. That's why the CPC is putting a huge Chinese pharmaceutical company out of business to further the advances of US led big pharma in China and the imperial acquisition of assets in China and control pver the Chinese working class.

Worldwide the makers of affordable and generic drugs are under attack by Gates-led Big Pharma and Chinese government is on side with that project even against "national" Chinese capitalists; they're even restructuring the regulatory functions of the state to Bill Gates' demands.

Their objective is to disempower the Chinese working class before it is too late (before theres another revolution); turning over the health care to Wall Street is a method of moving the necessities and the power out of reach of the Chinese working class.

Zis @Zis1941 ---- Apr 1, 2022 Excerpts from Mozgovoy's diary (unconfirmed if doctored):
"When the secret services of the Russian oligarchy kill our commanders, they say: don't wash dirty linen in public, it will damage the formation of the young republics! And who needs a state where the best are killed? -- But the main thing is that by pouring this poison into the ears of the people, they do not allow them to be indignant at the hypocrisy of their leadership"
"Amazing thing! As soon as the Ukrainian commanders and I went beyond the usual pattern, that is, just to talk like a human being, we were immediately kicked from both sides. After all, we destroy the image of the enemy! Which is painstakingly created by the media & their owners"
"But it could have been otherwise. Many officers of the Armed Forces of Ukraine, seeing what a rabble had seized power in Kyiv, did not want to shoot at their own people and were even ready to surrender. But not to the militia, this is humiliating for the army, but to the army of Russia, if it resolutely enters & accepts all honors. There was no resolution. The Armed Forces of Ukraine realized that they could be accused of treason at any moment, & did not take a historic step that could cross out all cunning plans and unite the divided people"
"The Kremlin pretends to be out of business, modestly silent about its role in the Ukrainian events. However, they did everything to make this war flare up...They did not prevent the coup d'etat, referring to the fact that this is internal affair of Ukraine. But they forgot about it when they took the Crimea. They did not send troops to protect the population of Donbass. But they sent armed detachments to Slavyansk, Lugansk & Donetsk. They promised military assistance. But they spit in such a way that it was impossible to win. In August, finally, troops were brought in, but they were not allowed to advance. They proclaimed Novorossiya from Lugansk to Odessa, but only two regions were allowed to be kept. But even half of them was left to the enemy, and the remaining stump was divided into the DPR and LPR
From trips to the Center every time an ambivalent feeling. There were people who wanted to help us, but apparently they, like us, were used blindly. In the detachment, even from Lisichansk, there were also employees from the locals, the former KGB... I realized with what. We were "helped" not to stop this war, but rather kindled it. Slowly fed our resources, not allowing us to win or lose. " ..... "I am sure that this is also the case in the Ukrainian army. They, apparently, are also kept on a leash, otherwise they would have broken through the front long ago and buried us."
---------- December situation:
The situation is unsettling. Well-coordinated units are disbanded. Those that have been formed will not be enough even for defensive actions, let alone for offensive ones. The new brigades are incomplete, secondly, untrained.
I do not want to argue, but I think that Moscow only creates the appearance of assistance (equipment, advisers, humanitarian convoys) in order to calm Russian society

---------- ComradeShpakova @SE_Shpakova - Nov 19, 2022: Actually, Yanukovych pleaded to Russia to intervene during Maidan, but Russia refused. Then months later, after the post-coup elections, Putin recognized Poroshenko as the "legitimate" new leader! Btw, I don't give Yanukovych any sympathy either - he disarmed Berkut & many died.

ANC Report
Someone said Ashkanazi is a Race. So I corrected them and added some objective history. That is like saying Irish is a race. Irish have a race, White. But Irish is a subset of White so is French, English, German

etc (it's all of Europe minus Italy) Irishâ€¦
Of course the fundamentalists THINK they are a bloodline to their patriarchs. Christians accept this too. But scientifically/genetically that isn't so because none of those mythological figures were real.

The problem is, religious people don't deal with actual history or science. A Jew is a Jew if his mother is a Jew. OK great but we already have Moms of several different races who follow Judaism and they do not have a common bloodline. That doesn't bother faith. Faith means you get to make up whatever you want and decide it's true, reality be damned.

If the Irish started to say they all came from the great ginger of the mountain King O'Patrick McGuinness who spoke to God on the roof of a pub and told them go forth and River dance in all the nations and they shall be yours. It wouldn't make it so.

For we all know Irish just means angels and we've been here from the beginning.

Someone said Ashkanazi is a Race. So I corrected them and added some objective history.

That is like saying Irish is a race.

Irish have a race, White.

But Irish is a subset of White so is French, English, German etc (it's all of Europe minus Italy)

Irish is an ethnic group, Irish who live in Ireland are a nationality. Not Everyone in Ireland is of Irish ethnicity. Majority of ethnic Irish live in the US, Canada and UK.

Ashkanazi are

Racially: White

Geographically: Eastern Europe/Turkey

Religiously: Jewish (but not all)

And self identify: (falsely) to be ancestral Hebrews who themselves identify (falsely) to be ancient Israelites which is not possible because ancient Israelites are mythology.

Overwhelmingly most Eastern Europeans are Christian and Turks are Muslim.

You can not invert the subset of a category to be the category. All dogs are animals â‰  all animals are dogs.

Most all Irish in Ireland who have a religion are Catholic. However in the US where most Irish people actually live some are Catholic some are Protestant. In the US people just join whatever church is near where they live. Sects have almost no importance.

If you donâ€™t know the difference between

Race

Ethnicity

Nationality

Religion

Language(s)

Then you shouldn't even be talking about it.

Race is easy.

Nationality is easy.

Language is easy.

Religion is fairly easy.

Ethnicity is the only complex one.

Ethnicity can be based on a shared history.

For example White English speaking Christians from Ireland living in the US are different ethnically from White English speaking Christians from Wales living in the US. Why because they share totally different histories with different cultural groups.

Ethnicity can be based on language. Kurds, Persians, Assyrians, Jews, are often from mixed heritages racially but can distinguish themselves by language regardless of where they are, Syria has them all for example.

Ethnicity can be by cultural group which is usually geographic too. So within the same county like America, a Southerner has both a different shared history and different cultural zone than a dirty rotten Yankee from New Jersey. But they have the same nationality same language, could have the same race and same religion. But they are not the same because Southerners are good and Yankees are intrinsically selfish evil rat bastards.

Jew is complex because they all just want to be related to people in the holocaust. Holocaustianity has taken over Jewish identity more than Judaism. This is why a Christian like Dave Smith calls himself a Jew even though he doesnâ€™t believe in Judaism and calls his kids half Jews as if you can inherit that. No one said half a Christian or half a Buddhist. Jewishness became about who you are related to because victim-hood is social currency. And being Jewish is the most privileged class one can belong to. Why not just say my mom was X but I am Y?

It used to be very simple. A Jew was a person who believes in Judaism. Done.

I'd say anyone stupid enough to believe a rabbi. Doesn't matter what race. Many people converted to Judaism who are not from and are not related to people from the Levant. In fact thatâ€™s nearly all of them.

The only two groups who call Jews a race are Zionist and Nazis.

People will bring up phenotype and different negative features associated with Jews. Thatâ€™s from inbreeding cause by a religion that only letâ€™s them marry each other. You see the same features (goblin face) among other religious groups who inbred for the same reasons.

There are no "original Jewsâ€? as in sons of Jacob because those stories are made up. It would be like a cult in England saying they are descendants of King Arthur. You cannot descend from someone who never existed.

Their religion was formed over centuries of time in multiple regions with stories it took from Babylonian, Greek, Zoroastrian, Sumerian/Akkadian faiths and even Hinduism.

> Forwarded from Ryan Dawson
> South Koreaâ€™s political turmoil, triggered by a short-lived martial law, is sending shockwaves through the countryâ€™s economy. The countryâ€™s national currency, won, has plunged to its lowest level against the dollar since 2009. According to the Bank of Korea, business and consumer confidence in the countryâ€™s economy have also plummeted, hitting the biggest drop since the outbreak of the Covid pandemic. The political upheaval began after President Yoon Suk Yeol ordered a martial law in early December. The decree only lasted six hours but its fallout resulted in Yoonâ€™s impeachment. The ripple effect of the abortive martial law didnâ€™t stop even after Yoon was impeached. On Friday, South Koreaâ€™s parliament voted for the impeachment of Yoonâ€™s successor, acting President Han Duck-soo.

https://youtu.be/1X2TLlA6aBY ---- Elon's Immigration Irritation - RazÃ¶r Rants ------- If it wasn't a psyop before, it certainly is one now. --- https://rumble.com/c/RazorFist

I'm not buying the narrative or counter narratives about Matthew Livelsberger. When they botch an operation they spoon feed the public a red herring. You're getting a BS conspiracy "leaked" to you
Hearing his DNA didn't match his child. Well that's typical of soldiers. Always get a paternity test boys.

Veteran suicide makes the most sense
Murdering someone is bigger than lighting fireworks in front of a hotel. They didn't rig a Tesla with a corpse. He killed himself but didn't want to kill others. He wanted Trump and Elon to see his manifesto. Thus the traget and thr car. As far as the kid not matching DNA that's typical of military wives.

ON THE AMERICAN ZELENSKY
To your point I agree. Don't complain about what someone doesnt say if you are not even willing to show your face and name and say it yourself. Don't tell Alex Jones what to say if you aren't doing it yourself. -- Well I've been very loud on all the stuff he won't talk about and am not annonymous. I'm also not a millionaire because of that. It might have been better to scream Bilderberg and sell water filters. ---- Jones knows better and he sells people sensationalism on purpose. If he was an idiot I wouldn't care. But he isn't. It's intentional. He is an entertainer, not a journalist. He is not in danger. The state left him alone until he backed Trump.

Alex is a gift to the deep state because he takes real issues sprinkles on some retarded fear porn and turns them into tar babies. He blamed JFK on an executive order 1110 (that order passed. It was not reversed by LBJ and it was not anti-fed). He blamed the OKC bombing on

Iraq --- He thought Y2K was nuclear Armageddon. He thought RFID chips were embedded in the money and you should microwave your bills to destroy them. .... He blamed 911 on Bush with no specifics and promoted ALL of the charlatans on that subject
He said Arabs own Hollywood then switched to the Chi-coms
He thought HAARP was part of an Earthquake machine that created title waves that hit Haiti and Japan
He claimed radiation from Fukushima was all over the US based on a meme where someone took a wave chart and switched wave with radiation.
He thought school shootings were faked by crisis actors to get our guns. He asked the MOAB bomb Gaza inch by inch.
He claimed Arabs don't build things.
He held a prayer for Netanyahu on Christmas Eve.
The entire time Epstein was raping kids he didn't say a thing until 2019 (after he was arrested.) Still won't cover the details and pretends it's a mystery.
Claims to be a drug free Christian guy when he's done all the drugs and is on his second wife who was his masseuse. Then told a Tranny he was a beautiful work of God. I don't really care about thst besides the hypocrisy.
On the posotive side he's against abortion and he's pro gun and he was against all of the wars beside Israel's invading their neighbors. He is generally anti-woke. He will talk about corruption of gulf Arabs or China. He was anti vax. Hates big pharma (but sells questionable supliments). Those thing might out weigh all his lying and fear mongering. But not for me. I'm constantly cleaning up his messes.

Oligarchs bad, But he runs cover for AIPAC by blaming the luciferians-globalist-deepstate-NWO-Bavarian-illuminsti-MIC-chicoms- the Elite. And we all know oe he knows better.
He could do [A LOT] of good and he could undo the damage he has done pushing BS bc he has a cult following. But he won't. He has the numbers so he could start telling the truth.
For the record I don't mind him defending Elon. Elons greatest contribution is liberating X. His personal political opinions are not very informed but that's most people his are just very on display. He will improve. He needs the right people around him which he currently has the opposite. I'd rather him talk to Jones than Vivek. And I'd rather Vivek than Shapiro.
We need to redpill Elon in steps. Right now he has overdosed which is typical in someone truth ascension. They learn a few things and then get gas lit into total mistrust which makes them ripe for conspiretards

Speech We Hate: An Argument For The Cessation Of International Pressure On Japan To Strengthen The Anti-child Pornography Laws - Alison Rapp, Augsburg College

cp segment begins around the 12 minute mark of an hours long look at the 'lady rapp' by josh moon [who cut down 2 streams per week to one to focus on becoming a free speech gateway .. yet he allows a few exceptions]

21st minute Josh gives us his CP verdict after reading a long quote from the section he transcribed [i thought he was clever enuff to pry any lock of any screened images and mirages but ok]:
--------- 1st amendment vs influence monopoly
--------- 1st amendment abuse countering exceptions

my words: keep duh kids vulnerable and delegatin the very being 'on their guard' [from getgo, no letup] so that whatever shite the parentopolist care to funnel in goes down without resistance from their kids who never even got to put up any in the first place, let alone against primary 'caregivers'.
